Good Morning Dustin,

I hope this message finds you well. I understand it was requested that if Commissioner Patarino wants to serve as the Contractor for the code review committees that such requested should be put in writing by IAA and other groups.

IAA is formally requesting that Commissioner Patarino be appointed by the commission to serve as the contractor. Upon review of the by-laws there isn't a prohibition against more than one commissioner serving, but only one designated commissioner spot.

As has been demonstrated since his involvement in code review and the commission, Commissioner Patarino has extensive experience as a general contractor involved in projects covering various industries. He understands the code review process and would be an asset to code review.

IAA also believes it is important to identify those areas most costly in review of building codes and standards to help agency staff and stakeholders identify and determine costs involved in new regulations, which will provide useful during rulemaking and consideration by the full commission.

We sincerely appreciate your consideration of this request. If you have any questions, please feel free to contact me.

Warmest Regards,

BRIAN SPAULDING, J.D.
Vice President of Government Affairs
