Section #	C	NC	R	Narrative	To Be Corrected
187	X			Measured display cooler, containing milk, at 52F. thermometer was reading 49F. Milk was voluntarily discarded. Cooler must maintain a temperature of 41F or below before used again for milk.	1 week
394		X		Observed old cardboard behind the dumpster.	2 days
256		X	X	Observed no thermometer in the salad cooler. Thermometer should be easy to access and read.	1 week
324		X		Observed a disconnected drain pipe coming from the ice machine. Area should be maintained dry.	2 days
433		X		Observed a mop in the mop sink and not hung to dry.	1 day
411		X	X	Meaured light intensity at grill less than 10 footcandles of light. 70 is the minimum light requirement in areas of food prep. Install brighter bulbs.	1 week
177		X		Observed uncovered tea urns in lobby.	today
351		X		Observed no covered trash can in woman's restroom.	1 week
352		X		Observed the self-closer removed on the men's restroom door. PIC stated it was damaged and removed.	1 week
295		X		Observed food debris in cooler on front prep line. Food debris did not appear to be from today.	1 day

Observed the mop sink faucet left on with closed down stream valves. The ABV valve on the faucet is not designed for constant pressure. Faucet should be turned off and hoses disconnected after each use or a bleeder valve should be installed. See guidance documents.
