Wednesday, February 10, 2016
7:30am-1:45pm, CST

Toyota Visitors Center
4000 S. Tulip Tree Dr.
Princeton, IN 47670

Cost: $10

2016 Postsecondary Pathways:
Road to Automotive Careers

Postsecondary Pathways is a regionally based discussion among K-12 counselors and educators, automotive corporations, employers, youth-serving professionals, and state and regional government agencies about how best to connect Hoosier students with the education and careers that fit their skills and interests.

Through panel discussions, keynote presentations and group networking, attendees will be connected to resources that enhance their ability to educate and train students to successfully pursue the automotive careers that exist within the region and the state.

Special Opportunity: Free Tour of Toyota Motor Manufacturing, Indiana. This year, Postsecondary Pathways will include the opportunity to tour Toyota Motor Manufacturing, Indiana.

The tour will give attendees the chance to see the sophisticated, technologically advanced facility, learn more about the types of jobs that are available and how students can prepare for those jobs.
