Higher Education Commission Awards Nearly \$10 Million in STEM Teacher Grants

Fund supports organizations preparing Hoosier educators in STEM subject areas

(INDIANAPOLIS) – The [Indiana Commission for Higher Education](https://che.in.gov/) has awarded over \$9.6 million to 16 organizations and colleges to support programs that recruit, prepare, place and retain educators in schools with teacher shortages in science, technology, engineering and math (STEM) subject areas. This year, the Commission saw a 40 percent increase in grant applications compared to the 2019 grant cycle.

Since the STEM Teacher Recruitment Fund was created by the General Assembly in 2013, it has supported over 2,000 current and new STEM educators throughout Indiana. This is the fifth round of grant funding.

“For Indiana to have a competitive, skilled workforce for the jobs of today and tomorrow, there must be a strong pipeline of students pursuing STEM fields,” said Indiana’s Higher Education Commissioner Teresa Lubbers. “Teachers play a critical role in getting students interested in these fields and preparing them to be successful to pursue them after high school.”

The selected programs focus on recruiting and retaining high-quality teachers in underserved STEM classrooms and high-need school districts. These programs also provide access to coursework necessary for STEM teachers to continue teaching dual credit courses; support teacher mentorship programs; offer teacher training models; increase rural access to computer science content and teaching; and provide training to teachers of advanced manufacturing and logistics content.

2021 STEM Teacher Recruitment Fund Award Recipients

- Conexus Indiana
- Independent Colleges of Indiana/Center of Excellence in Leadership of Learning
- Nextech
- Purdue Research Foundation (two programs):
 - Strengthening Indiana’s Future Through the 21st Century STEM Teachers

About the Indiana Commission for Higher Education

Created in 1971, the Indiana Commission for Higher Education plans, coordinates and defines Indiana’s postsecondary education system to align higher learning with the needs of students and the state. The Commission also administers Indiana’s financial aid programs, including the [21st Century Scholars](#) early college promise scholarship, which celebrated 30 years in 2020. Learn more about the Commission’s [Reaching Higher in a State of Change](#) strategic plan at www.in.gov/che.
