Note: All completion data limited to first-time degree-seeking students who initially enrolled full-time in Indiana public institutions. "Gap Closed" means that the completion rates of each group of interest are equal. Campuses with fewer than 30 students in a group are excluded from the achievement gap metrics. The most recent years are: 2011 for four-year institutions and 2013 for two-year institutions. Due to rounding, percentage point changes calculated using data from charts may not exactly match the reporting percentage point change.
