SERVICE STANDARD INDIANA DEPARTMENT OF CHILD SERVICES HOMEBUILDERS®

I. Services Description

HOMEBUILDERS® is an evidence-based program designed to strengthen families in order to prevent unnecessary out-of-home placement or return children from foster care, group care, psychiatric hospitals, or correctional institutions. Families served by this intensive, in-home, family therapy model have children in imminent risk of placement, or have children in placement who cannot be reunified without intensive services. The presenting problems may include child abuse, neglect, family conflict, juvenile delinquency, and child or parental developmental disabilities and/or mental health problems. Established in 1974 in Washington State, the HOMEBUILDERS® model has been implemented across the United States and internationally.

The underlying philosophy of HOMEBUILDERS® is that it is best to raise children in their own family. Out of home placement is traumatic for children, and does not teach families how to keep their children safe in the future. In addition to this basic philosophy, a set of clearly articulated values and beliefs guide how therapists treat family members and how interventions are structured. Primary among these are the beliefs that all people can change and that many problems are the result of skill deficits. The program minimizes barriers to service, uses specific strategies to enhance family member motivation and participation in treatment, and teaches skills designed to improve family functioning and change the environment to diminish stress.

II. Model Fidelity

The HOMEBUILDERS® model has a clearly defined site development process including a set of standards to guide program implementation and clinical practice, and an ongoing training and quality enhancement system to ensure model fidelity and continually improve service delivery. All HOMEBUILDERS® provider will be required to follow the HOMEBUILDERS® standards, and deliver and implement services according to the Homebuilder Standards, unless otherwise addressed in this standard. The HOMEBUILDERS® standards can be accessed at:

http://www.institutefamily.org/pdf/HOMEBUILDERS-Standards-3-0.pdf

III. Program Expectations

- 1. Contracted providers for the Homebuilder® services will adhere to the Homebuilder® standards and fidelity measures, unless otherwise addressed in this standard.
- 2. Worker must be dedicated to intensive cases only; no mixed caseloads; only 2 cases at a time, but may have 1 or 3 for a short period of time. For example, when a reunification case is being added as a third case with low intensity services being provided during 15-30 days prior to the child coming home. Another example may be when a family is in the final stages of service and the high intensity of the service is no longer needed.
- Cost of providing services to the family includes training expenses of the provider.
 Therefore, contracted providers of Homebuilder® services must agree to participate in all required Homebuilder® trainings.

- 4. The provider of Homebuilder® services will collaborate with the local DCS office to determine appropriateness of referrals.
- 5. Prior to proposing services under this standard, each team must have one member who has completed the basic Homebuilder Fundamental training provided by the Institute for Family Development. In addition, the individual must have provided IFPS/IFRS services to families for at least one year
- 6. Contracted providers of Homebuilder® services will cooperate and participate in all on-site evaluations conducted by DCS or the Institute for Family Development.
- 7. Contracted providers of Homebuilder® services will cooperate and participate in all quality assurance and/or QUEST activities as directed by the Institute for Family Development.
- 8. For reunification cases, the child should be returned to the home within 30 days of referral. During this time period the provider should insure regular visitation is occurring between the parent and child in the home. The provider should also use this time to work with the parents to address issues regarding the child's return, for example the child's transition into school.
- 9. Providers will utilize the CFTM when transitioning from intensive service provision. The worker should use the CFTM to assist in identifying additional service needs and in resolving issues that arise following the removal of intensive services. This should include helping to assess child safety and family functioning outside of the intensive service period.
- 10. Homebuilder® Services will be delivered in teams consisting of 3-5 workers and one supervisor. Direct workers are full time and cannot have mixed caseloads. Indiana has determined the following team locations as indicated in Table 1. Twelve (12) teams will be developed as shown in Table 1 which also lists the region(s) where workers will be located, number of workers, number of supervisors, minimum number of families to be served by each team, and the maximum funding amount per team.

Table 1

Team 1	Team Location (DCS Region) Region 1 Team	Number of Direct Workers on the team	Number of Supervisors 1	Minimum Number of Families to be Served 54	Maximum Funding Amount per Team \$324,000
2	Regions 2 and 3 Team Region 2 Region 3	5 1 4	1	90	\$540,000
3	Region 4 Team	5	1	90	\$540,000
4	Region 5 Team	3	1	54	\$324,000
5	Regions 6 and 7 Team Region 6 Region 7	3 1 2	1	54	\$324,000

IV. Compensation and Risk Sharing

Contracted providers of Homebuilder® services will be paid a monthly flat rate of \$9,000 per direct worker on the team. Estimated cost of each team is included in Table 1 above. New hires and staff that resign will be paid a per diem for the number of days on staff for the month at \$300/day. The flat rate is based on the team serving the number of families indicated in Table 1 (18 families per direct worker). It is expected that in most circumstances, a direct worker will be able to serve 18 families each year of the contract(However, there are some cases, when this is not possible, due staffing turnover or other circumstances. For this reason any families served by supervisors will also count toward the teams target number of families to be served. Please note: New supervisors are required to carry a small caseload as part of their Homebuilder® training.

Incompletely served cases will be given partial credit. A family is not considered served until they reach a minimum of 60 hours of service (face-to-face or on behalf of the family) Families served at least 40 hours but less than 60 hours will count as .5 family units. If the team does not serve the number of families indicated, the provider will reimburse the Department of Child Services \$3,000/per unserved family and \$1,500 per .5 unserved family.

The funding allocated per team includes all costs associated with the delivery of the Homebuilders® model service. This includes but is not limited to all supervision costs, emergency funds to meet the specific needs of the family, travel costs, interpreter services, court testimony and direct worker costs, and all administrative overhead. The state reserves the right to impose sanctions on the provider up to and including termination of the contract, for failure to provide ample staff and service provision or for failing to follow the Homebuilders® Standards.

V. Target Population

Families served by this intensive, in-home, family therapy model have children in imminent risk of placement, or have children in placement who cannot be reunified without intensive services.

In addition, services must be restricted to the following eligibility categories:

- 1) Children and families who have substantiated cases of abuse and/or neglect and will likely develop into an open case with IA or CHINS status.
- 2) Children and their families which have an Informal Adjustment (IA) or the children have the status of CHINS or JD/JS.
- 3) Children with the status of CHINS or JD/JS and their Foster/Kinship families with whom they are placed.

VI. Goals and Outcomes

All HOMEBUILDERS® provider will be required to follow the HOMEBUILDERS® Model and meet HOMEBUILDERS® fidelity measures. These Fidelity measures can be accessed at: http://institutefamily.org/pdf/HOMEBUILDERS-FidelityMeasures-Abridged-2-3.pdf

VII. Qualifications

Direct Worker

Master's degree in social work, psychology, marriage and family therapy, or related

human service field or a Bachelor's degree in social work, psychology, sociology, or related human service field with at least 2 years of direct social service experience.

Supervisors

Master's degree in social work, psychology, or marriage and family or related human service field with a current license issued by the Indianan Social Worker, Marriage and Family Therapist or Mental Health Counselor Board as one of the following; 1) Clinical Social Worker, 2) Marriage and Family Therapist, 3) Mental Health Counselor or Master's degree in social work, psychology, marriage and family, or related human service field and three years experience in child welfare or related human services.

VIII. Billable Unit

Monthly Flat rate per direct worker:

Homebuilder® services will be paid a monthly flat rate. The flat rate is \$9,000 per month per direct worker as indicated in the Compensation and Risk Sharing section of this standard.

IX. Case Record Documentation

Case record documentation for service eligibility must include:

- 1) A completed, signed, and dated DCS/ Probation referral form authorizing services
- HOMEBUILDERS® assessment, service and service summary will be utilized.
- 2) Documentation of regular contact with the referred families/children
- 3) Written reports no less than monthly or more frequently as prescribed by DCS/Probation. Monthly reports are due by the 10th of each month following the month of service, case documentation shall show when report is sent.
- Copy of DCS/Probation case plan, informal adjustment documentation, or documentation of requests for documents given to DCS/Probation

X. Service Access -

All services must be accessed and pre-approved through a referral form from the referring DCS/Probation staff. In the event a service provider receives verbal or email authorization to provide services from DCS/Probation an approved referral will still be required. Referrals are valid for a maximum of two (2) months unless otherwise specified by the DCS/Probation.

XI. Adherence to the DCS Practice Model

Services must be provided according to the Indiana Practice Model. Providers will build trust-based relationships with families and partners by exhibiting empathy, professionalism, genuineness and respect. Providers will use the skills of engaging, teaming, assessing, planning and intervening to partner with families and the community to achieve better outcomes for children.
