RELATED INFORMATION

Supporting the Child's Positive Identification with His or Her Family of Origin

One of the most important resource parent roles is to support the child's positive identification and positive relationship with the child's family of origin. This is true regardless of the amount of parent, guardian, or custodian interaction and involvement prescribed by the [Case Plan \(SF2956\)](#) and [Visitation Plan](#). A child identifying with his or her family is very important regardless of the permanency goal. The relationship between the child and his or her family has a long-term affect on the child's self-esteem and future emotional well-being. See separate policy, [8.11 Parental Interaction and Involvement](#) for a detailed matrix that describes the levels of interaction between children and their parent, guardian, or custodian, and the corresponding levels of involvement that the parent, guardian, or custodian will have in their child's life.

[NEW] Lifebooks and/or Adoption Workbooks

Lifebooks and/or Adoption Workbooks come pre-packaged and can be ordered by contacting the Program Manager for Adoption, Youth Connections, and Guardianship. The FCM may also contact his or her Regional SNAP Specialist to place an order for Lifebooks and/or Adoption Workbooks. The Lifebooks and/or Adoption Workbooks will be mailed to the FCM in the DCS local office.

Note: The **pre-packaged** Lifebooks and/or Adoption Workbooks are not mandatory for the FCMs to use. The FCM, therapist, family member or foster parent may create a unique Lifebook and/or Adoption Workbook for a child using a photo album, scrapbook materials, or any creative idea that would be most meaningful for that child.

DCS currently has the following types of pre-packaged Lifebooks and Adoption Workbooks:

My Adoption Workbook

My Adoption Workbook is a kid-friendly workbook that guides the social worker and child through the adoption process. This workbook provides a sensitive, but forthright explanation of separation, followed by hands-on activities to help prepare a child for change and work through the process.

Nothing raises a child's anxiety more than the unknown. "**My Adoption Workbook**" carefully guides the child and social worker through the entire process from separation to post-adoption. Exercises are designed to reduce the fears and to promote a healthy child-to-parent relationship. Special emphasis is given to helping the child:

- Explore fears or fantasies;
- Work through abuse, trust and love issues;
- Build self-esteem;
- Handle new situations; and
- Adjust to change.

The One & Only Me is a book that helps foster, adoptive, and other troubled children connect to their current situation, as well as, their beginnings. This book creates a living history for children dealing with a chaotic past.

The Real Me teen Lifebook is a tool to use when working with teens. The teenage years are a challenge even in the best situations. For teens in foster care or living in a group setting, the uncertainties about the future can cause additional stress and worry. The chapter *What My Future Holds* provides a framework that youth can use to process the many issues they face. It also prompts them to gather the necessary documentation for job hunting.

[NEW] Reasonable and Prudent Parent Standard

A caregiver must use the Reasonable and Prudent Parent Standard when determining whether to allow a child in foster care, under the responsibility of the state, to participate in extracurricular, enrichment, social, and cultural activities. The Reasonable and Prudent Parent Standard is characterized by careful and sensible parental decisions that maintain a child's health, safety, and best interests, while at the same time, encouraging the child's emotional and developmental growth.
