

**Healthy Families Indiana
Administrative Alert**

DATE: March 2, 2010

TO: HFI CEO's and Program Managers

FROM: Audie Gilmer

SUBJECT: Administrative Alert #2010-3
New Service Code for SSGB Funds #0911

You will soon receive revised Attachment's A to accompany your current contracts. Your funding and unit rates remain the same but there will be a new service code, #0911. This code identifies the Social Service Block Grant (SSBG) funding, the money that DCS located to replace a portion of the reduced TANF dollars. Effective January 1, 2010, all contracts will include both SSBG - 0911 funds and TANF - 0905 funds. Eligibility for services is the same under both funding sources/codes; all HFI families must have a social security number and be under 250% of poverty. Therefore, you may utilize and bill under either code up to the limits specified your contract in whatever order you decide throughout the contract year.

Note: The service code 0903 is not valid after December 31, 2009; there are no state funds.
