Beth,

I acknowledge this variance, but wish to oppose it to the commission. At this point, it appears that all safety features of this apartment building has been eliminated. We have no sprinkler system or egress windows in the event of a fire. We also have no notification of any of the other tenants within the same structure, except those in the same apartment. Thank you for forwarding this to the commission as I will not be able to attend the October meeting to oppose this in person due to a conflict in scheduling.
