

# ALEXANDER WILSON

## BIRD DAY

**8AM: BIRD HIKE-** Start off the day right with a morning bird hike! Meet Wyatt at the Lakeview Activity Center to make a list of birds we see and hear during our hike. Binoculars encouraged but not necessary.

**10AM: WONDERS OF MIGRATION-** Some birds nest in the arctic and overwinter in South America! Come to the LAC to learn more about how they navigate such distances!

### **3PM: ALEXANDER WILSON MONUMENT**

**REDEDICATION-** 150 years ago, our very own George Donaldson erected a monum[Type a quote from the document or the summary of an interesting point. You can position the text box anywhere in the document. Use the Drawing Tools tab to change the formatting of the pull quote text box.]

... that he admired; watch him

**5PM: HELPING AT HOME-** Birds don't have things easy. With habitat loss, human impact, and natural predators, they need all the help they can get! Meet Kelsey at the LAC to learn how to make things a little easier for our feathered friends! You'll even get a chance to build and take home your own bluebird house!

**7PM: HOW BIRDS FLY-** Ever wonder how birds are able to soar above the clouds? Meet Kelsey in the field near Sycamore Shelter to talk flight mechanics and give it a try yourself by flying kites!

**9:30PM: TALKING TO OWLS-** Owls have long been a mysterious sound in the night, but now you might actually get to see one! Meet Wyatt at the Lakeview Activity Center to talk about, and to, owls!
