ATI, Inc. of Mt. Vernon Achieves Recognition for Worker Safety and Health

INDIANAPOLIS (Sept. 8, 2011) –ATI, Inc. is leading the way for Hoosier workplace safety and health having established a three-year average occupational injury and illness rate more than 60 percent below the national average for their industry.

As a result of ATI's commitment a safe and healthy workplace, the Indiana Department of Labor welcomed the company into the Indiana Safety and Health Achievement Recognition Program (INSHARP) Thursday, Sept. 8, 2011.

To participate in INSHARP, a company must develop and implement an effective worker safety and health program as well as maintain occupational injury and illness rates below the national average for their industry. To date, fewer than 50 Hoosier workplaces have been awarded INSHARP certification.

“The Indiana Department of Labor recognizes ATI, Inc. for the diligent efforts and the commitment it has demonstrated to maintaining a safe and healthy working environment,” said Indiana Department of Labor Commissioner Lori Torres. “We continually strive to lower Hoosier occupational injuries and illnesses and we are proud to honor Hoosier employers who share this dedication.”

ATI's facility in Mt. Vernon, Indiana, develops rubber track systems. The company is privately owned and has operated for more than 14 years and employs fewer than 10 employees.

More information about the INSHARP program can be found at www.in.gov/dol/2382.htm.

About the Indiana Department of Labor:

The mission of the Indiana Department of Labor is to advance the safety, health and prosperity of Hoosiers in the workplace. In order to make significant strides, we emphasize both enforcement and compliance assistance by employers. www.in.gov/dol.
