If my company becomes the Contractor, the certified DBEs listed below have tentatively agreed to perform the corresponding services as part of this contract's DBE goal ("race/gender conscious" DBE participation). If a portion of a line item is used to satisfy the goal, the full dollar amount of the item will be considered as race conscious.

I have also listed the certified DBEs that have tentatively agreed to perform the corresponding services listed below beyond what is necessary to meet the contract's DBE goal ("race/gender neutral" DBE participation). I understand that neither my company nor I will be penalized for failure to achieve the dollar amounts listed beyond the contract goal.

After contract award, any change to the firms listed as DBE SUBCONTRACTORS AND LESSORS TO BE APPLIED TOWARD GOAL or DBE MATERIAL SUPPLIERS TO BE APPLIED TOWARD GOAL in this Affirmative Action Certification must have prior approval by INDOT's Economic Opportunity Section, Central Office.

Project Description: Box culvert replacement on US 231, 1.9 miles north of SR 64

Background: Low bidder's packet was submitted with no MBE participation and sufficient WBE participation (5.00%). We requested the good faith efforts worksheet and any supporting information from Deig Bros. Dan Muller of Deig Bros. stated that he did not receive the three day notice to send more information to INDOT regarding the good faith efforts worksheet.

The following is a recap of the good faith efforts of Deig Bros. Lumber & Construction Co., Inc. as outlined in the construction policy:

- A. Notice to MBEs and WBEs. Low bidder provided information on several contracting opportunities, who to contact for each one, and when each quote needed to be submitted. Bidder provided notice primarily by to 107 different MBEs and WBEs advising MBEs and WBEs:
 1. of the subject work the bidder intends to subcontract;
 2. that their interest in Subcontracts is being solicited;
 3. how to bid on the subcontracting opportunities and deadlines.
- B. Economically Feasible Subcontract. Bidder selected economically feasible portions of the work into manageable subcontracting areas to potentially be performed by MBEs and/or WBEs as was spelled out in the Schedule of Pay Items. Bidder stated only 3 of the 107 MBE and WBE companies responded, which they utilized. The only other area bidder may have been able to subcontract would be the construction signs.
- C. Consideration of all MBE and WBE Quotations. According to documents submitted, out of the 107 emails sent to MBEs and WBEs, low bidder received

written quotes from 3 WBE firms and no MBE firms. Low bidder used all 3 quotes from the WBE firms. The bidder contacted several construction supply and engineering companies with no response.

- D. MBE and WBE Barrier Assistance. Bidder's packet included no evidence of assisting an MBE/WBE firm in overcoming a barrier.
- E. Advertisement. Bidder's packet contained no documentation indicating that the project had been solicited to MBEs and WBEs. The only medium of contact was via email.
- F. Agency Assistance. Bidder provided no evidence of their effort to contact either organization 1 or 2.

- G. Research Participation Areas. Bidder provided a list of companies in which they contacted that perform a variety of construction services. They only utilized the companies that submitted a quote by the due date.
- H. Response Time. Bidder allowed minimal time (6 days) for subcontractors to respond to their notice. Most of the emails were sent out on, 5/02/08, and the bid submission due date was Wednesday, 5/8/08. This may be the reason only 3 of the 107 MBE and WBE firms submitted their quotes in timely manner.
- I. Documentation of Statements from MBEs and WBEs. Low bidder was successful in contacting several MWBE vendors listed in an attached document. Bidder provided one sample email and the utilized WBE's letters of commitment.
- J. Availability of MBE and WBEs. Low bidder searched for MBEs and WBEs to provide an engineering service and construction supplies. None of the contacted companies submitted a quote in response to the bidders notice.

Recommendation: Recommended that the full MBE waiver be granted to low bidder due to sufficient documentation and explanation of good faith efforts in attempting to attain the MBE goal. Of the 3 bids submitted for this project, 3 of 3 (100%) met the WBE goal and 1 of 3 (33.3%) met the MBE goal. Low bidder met their WBE goal. Should encourage bidder to continue working with the MBE companies to increase their participation in the project.

Project Description: Wedge and Level on I-265 from I-65 to SR 62

Background: Low bidder's packet was submitted with some MBE participation (3.65%) and excess WBE participation (12.50%). We requested the letters of commitment and any supporting documentation for the good faith efforts worksheet. Victor Miller of Gohmann Asphalt stated that he did not receive the three day notice to send more information to INDOT regarding the good faith efforts worksheet and letters of commitment.

The following is a recap of the good faith efforts of Gohmann Asphalt & Construction Inc. as outlined in the construction policy:

- A. Notice to MBEs and WBEs. Bidder provided notice primarily by mail and phone to eleven different MBEs and WBEs (including the three utilized in the project) advising MBE and WBEs:
 - 1. of the subject work the bidder intends to subcontract;
 - 2. that their interest in Subcontracts is being solicited;
 - 3. how to bid on the subcontracting opportunities and deadlines.

- B. Economically Feasible Subcontract. Bidder selected economically feasible portions of the work into manageable subcontracting areas to potentially be performed by MBEs and/or WBEs as was spelled out in the Schedule of Pay Items. Bidder stated that no other area of this project is beyond the focus of this core business functions.

- C. Consideration of all MBE and WBE Quotations. According to documents submitted, low bidder received written quotes from only the three MBE/WBE firms utilized. Letters sent to firms included every aspect of work that could

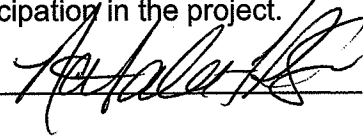

possibly be subcontracted with a request for quotes, but the other eight MBE/WBE's either didn't answer or respond. Low bidder selected quotes from one MBE and 2 WBE firms.

- D. MBE and WBE Barrier Assistance. Bidder's packet included no evidence of any barrier assistance to any MBE/WBE firm.
- E. Advertisement. Bidder's packet included no indication of solicitation for subcontracting opportunities.
- F. Agency Assistance. Bidder contacted IDOA (org #1 below) for the purpose of locating prospective MBE and WBEs. Bidder spoke to Rick Klapak and provided supporting documentation.

- G. Research Participation Areas. Bidder provided documentation evidencing efforts to research other possible areas of participation beyond the 3 MBE/WBEs he subcontracted. Bidder provided, in his letters sent to MBE/WBE's, the area of concentration his business is in and every other area that could possibly be subcontracted. Bidder provided a list of companies, along with some supporting documentation, he contacted in an attempt to fulfill his project needs.
- H. Response Time. Bidder allowed limited time, six to eight days, for subcontractors to respond to their letter. They did contact each company by phone on the due date in order to get an update and/or provide anymore information. The letters were sent out on, 4/29/08, and the bid letting days were May 5th, 6th and 7th.
- I. Documentation of Statements from MBE and WBEs. Low bidder was successful in contacting several MWBE vendors listed in The Good Faith Efforts Worksheets. Bidder provided documentation of contacting several MBE/WBE companies but received no quotes (except from the MBE/WBE's utilized). They provided letters of commitment from the MBE/WBE's working on the project.
- J. Availability of MBE and WBEs. Low bidder contacted MWBED to find a MBE/WBE trucking company to work on the project. Bidder stated there is little to no room to economically subcontract any more MBE and WBE's due to the size of the project and the focus of their organization.

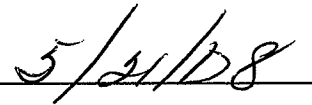

Recommendation: Recommended that the partial MBE waiver be granted to low bidder due to sufficient documentation and explanation of good faith efforts in attempting to attain the MBE goal. Of the three bids submitted for this project, three of three

(100.0%) met the WBE goal and 0 of 3 (0%) met the MBE goal. Low bidder greatly exceeded their WBE goal and achieved the highest MBE participation of the three bidders. Should encourage bidder to continue working with the MBE companies to encourage their participation in the project.
