
TRAFFIC MAINTENANCE PROCEDURE

1. The right lane shall be closed for the full length of the interchange before gore area or acceleration lane work begins. The right lane closure shall not to extend through two adjacent interchanges.
2. Traffic shall be maintained on all exit and entrance ramps.
3. See Standard Drawing 801-TCLG-01 for cone and drum spacing.
4. Distances shown are approximate and may be adjusted as directed.

LEGEND

- ● Cones for daytime operations
  Drums for nighttime operations
- * High intensity flashing light type B

All dimensions are in mm unless otherwise specified.
