

HEPATITIS C

January 1, 2010 – December 31, 2010

NOTE:

Data are provisional and should be finalized later in 2011.

Hepatitis C (HCV) cases may reflect county of medical provider and not residence of individual due to reporting system limitations.

State of Indiana:

Reported in 2010 = 5,954

Label definition:

HCV Cases reported in 2010. Suspected, probable, and confirmed cases based on case investigations.

(*) Counties with Indiana Department of Correction (IDOC) facilities.

NOTE: 2011 Hepatitis C data by county is currently unavailable but will be provided in future reports.
