

DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

INDIANAPOLIS

OFFICE MEMORANDUM

DATE: October 20, 2015

TO: Office of Land Quality

FROM: Laura Steadham, Chief,
Science Services Branch

RE: New Attenuation Factors

The U.S. EPA released their new vapor intrusion guidance documents, *Technical Guide for Assessing and Mitigating the Vapor Intrusion Pathway from Subsurface Vapor Sources to Indoor Air* and *Addressing Petroleum Vapor Intrusion at Leaking Underground Storage Tank Sites*, in June 2015.

These documents include several revisions to previously recommended attenuation factors. These revised values are acceptable to IDEM.
