

Figures

1. Highland-Pigeon Watershed
2. Location relative to State
3. Location within SW Indiana
4. 14-digit subwatersheds
5. Location of watershed
6. Location within SW Indiana
7. Soils associations
8. 14-digit subwatersheds
9. Land use/land cover
10. Managed natural areas
11. Land use-McFadden Creek
12. Sediment loading
13. Location of livestock operations-McFadden Creek
14. Sediment Loading
15. Phosphorous Loading
16. McFadden Creek sample sites
17. Pigeon Creek E. Coli exceedances
18. McFadden Creek E. Coli exceedances
19. Subwatersheds warranting protection
20. McFadden Creek priority reaches
21. Priorities for best management practices
22. Smith Fork livestock BMP's
23. McFadden Creek livestock BMP's
24. IDNR-LARE brochure
25. PHWSC brochure
26. Septic discharge
27. Phosphorous loading
28. Solid waste sites
29. Wetland areas
30. Potential locations- constructed wetlands
31. Mcfadden Cr. monitoring sites for Goal #1
32. Pigeon Cr. monitoring sites for Goals #1 and #2

Tables

1. Watershed climate data
2. Wetlands
3. Threatened & endangered species
4. Natural areas
5. Land use in Pigeon Creek watershed
6. Land use in McFadden Creek watershed
7. NPDES discharges
8. Relative tributary biotic integrity
9. Annual sediment yield
10. Annual phosphorous loading
11. McFadden Creek substrate quality scoring
12. Relative tributary biotic integrity
13. Sites exceeding E. coli standard- Pigeon Creek
14. Relative tributary biotic integrity
15. Constructed wetland efficiency
16. Sediment load reductions for subwatersheds 23,24,25,26
17. Sediment load reductions for subwatersheds 16,17,18
18. Sediment load reductions for subwatershed 6
19. Phosphorous load reductions for subwatersheds 24,25
20. Phosphorous load reductions for subwatersheds 16,17,18
21. Load reductions for McFadden Creek
22. Feedlot reductions-Smith Fork
23. Feedlot reduction-McFadden Creek- swine
24. Feedlot reduction-McFadden Creek- dairy
25. Action register
