IDEM Update

- Reducing Toxics in Indiana Grant
- Pollution Prevention Definition
- Staff Changes
- TRI press release
- 2010 Governor's Awards
- Tier II reporting

Reducing Toxics in Indiana Grant

- OPPTA received a \$160,000 EPA grant to focus on reducing toxics in Indiana.
- We will be looking at specific toxics on the Resource Conservation Challenge Priority chemical list and working with facilities through Pollution Prevention Opportunity Assessments to identify projects.
- Facilities with projects that focus on reducing these toxics will then be able to apply for Pollution Prevention grants in August 2010.

Pollution Prevention

Pollution prevention is the reduction or elimination of pollution at the source (source reduction) instead of at the end-of-the-pipe or stack.

Staff Changes

Dan Murray

Sandra Flum

Troy Woodruff

Tania McDonald

Katie England

Mark Amick

TRI Press Release

- EPA is releasing data in December
- IDEM will follow EPA's lead and issue a press release with Indiana results in December

Governor's Awards

- Nominations will be accepted from mid-December to April 23, 2010
- Check the website later this month:
<http://www.in.gov/idem/5147.htm>

Tier II Reporting

- Work has been done to fix data entry challenges
- An instructional link is being prepared to assist in using the Regulatory Services Portal
- ***Due to new Federal Reporting requirements, all individuals submitting an electronic submittal, via the Regulatory Services Portal (RSP), will be required to submit a signed Indiana Electronic Subscriber Agreement (IESA) prior to logging in to the RSP.***
The new agreement will be posted on the e-services portion of the IDEM website on December 28, 2009. In the meantime, the link to the RSP will disabled.
