When to use this annual report form...

STOP! Is your facility a member of the U.S. Environmental Protection Agency's National Environmental Performance Track and Indiana Environmental Stewardship Program? If so, please use the U.S. EPA National Environmental Performance Track Annual Performance Report form available at <http://www.epa.gov/performancetrack/program/report.htm>. The U.S. EPA will notify IDEM after receiving your annual performance report.

GO! Please use this annual report form if you are only a member of the Indiana Environmental Stewardship Program and not a member of the National Environmental Performance Track. Your Annual Performance Report should be reviewed and signed by a senior manager at your facility prior to submittal. Once signed, fax, mail, or e-mail the report to IDEM. If you have any questions, please contact the ESP Program Manager at 800-988-7901.

The Indiana Environmental Stewardship Program (ESP) Annual Performance Report should demonstrate progress toward objectives and targets AND certify ESP requirements continue to be achieved. The Annual Performance Report should cover the twelve (12) month calendar year and include the status of projects committed to in your facility's original ESP application, results of completed projects, and assurance that an annual internal environmental management system audit was conducted by your facility. Indiana ESP facilities must submit an Annual Performance Report by April 1st of every year, for each calendar year in which the entity has been a member for at least three (3) full months.

Please do not include any confidential business information in your Annual Performance Report. Public access laws require IDEM to make the Annual Performance Report publicly available, which may include posting all portions of your report on the Indiana ESP Web site.

SECTION C

ENVIRONMENTAL IMPROVEMENT INITIATIVE RESULTS

Why do we need this information?

Facilities need to share the results of the environmental improvement initiative that was pursued during the reporting period.

What do you need to do?

Use the following table to summarize your facility's environmental performance as compared to your ESP environmental improvement initiative.

Category: **Energy**

Aspect: **Non-transport energy use**

Specific Information on Aspect (optional): **Steam generation and power distribution**

	Baseline	Progress during year 2007	Environmental Improvement Initiative Goal	Cost Savings (if applicable)
Actual Quantity (per year)	24,156	21,012	10% reduction	\$24,381 05 to 07 electric
Measurement Unit	MWH	MWH		
Normalized Quantity (per year)	24.35	21.18		
Basis for your Normalizing Factor (e.g., gallons of paint produced)	per 1000 SqFt	per 1000 SqFt	per 1000 SqFt	

Briefly describe how you achieved improvements for this aspect or, if relevant, any circumstances that delayed progress.

Awareness of energy use; change to efficient lighting; computers off when not used; set points on HVAC; lights out in unused areas; motion sensors control lights

Please list any state, EPA, or other partnership programs to which you are reporting this data (e.g., Energy Star, Project XL).

NA

(Optional) If your facility has experienced continued results for environmental improvement initiatives pursued in past years of ESP membership, please share those results here.

2006-2007 Decreased 948 MWH; 2005-2007 Decreased 3144 MWH (15% reduction in electricity consumed)

SECTION D

ENVIRONMENTAL IMPROVEMENT INITIATIVES

Why do we need this information?

Facilities need to demonstrate their commitment to improving environmental performance.

What do you need to do?

Refer to the Environmental Performance Table.

For ESP membership, you must identify three (3) environmental improvement initiatives for each 3-year membership term. One (1) initiative was identified in the application and the remaining will be identified each year in the annual report. Identify the new initiative that will begin this year by answering the following questions. Choose an indicator from the Environmental Performance Indicator Table to measure the identified environmental initiative. The Environmental Performance Indicator Table is provided with the ESP Application and is also available at <http://www.in.gov/idem/prevention/esp/table.doc>. The indicator you select for your initiative should be related to the objectives and targets in your EMS. Where possible, indicators should also be identified as having a significant environmental impact in your EMS. No more than two of your indicators can be from the same environmental category during the 3-year term. If you are not sure how your objectives and targets fit into the indicators from the Environmental Performance Indicator Table or whether your indicators are significant, call IDEM at 800-988-7901.

Please complete the following questions according to the environmental indicator you selected from the Environmental Performance Indicator Table. Additional information is required for air, hazardous waste, solid waste, and energy indicators as requested in Appendix 1.

1a What category have you selected from the Environmental Performance Table? (If the category is Energy Use, Waste, or Air Emissions for Total GHGs, please turn to Appendix 1 to complete additional questions pertaining to the category you have selected.) **Water**

1b What indicator have you selected from the Environmental Performance Table? **Water Used**

1c All measurements should represent the performance level for the indicator across the entire facility. For many indicators, you may choose to focus your initiative on a specific subset of the indicator (e.g., a specific material, process, VOC, group of toxic air emissions, or particular waste component). Does your initiative include everything covered by the indicator (e.g., all VOCs, all non-hazardous waste), or a specific process, substance, or component (e.g., ethane, cardboard)?

- All
 Specific

If your initiative is specific to a substance or component, please provide additional detail on your indicator (e.g., specific chemical to be reduced, specific waste component). **Weekend compressor/cooling tower water use**

1d What activities or process changes do you plan to undertake at your facility to accomplish your initiative (e.g., technology changes in a particular process line, employee training)? **Switch weekend compressor from city water to cooling tower water, saving 3.7 MG/year on water and sewer use.**

2a Does this initiative address a significant aspect in your EMS?

- Yes

No

2b If no, please explain why you believe this indicator should be included as an environmental improvement initiative.

Stop! If the category listed in Question 1a is Energy Use, Waste, or Air Emissions for Total GHGs, please skip Questions 3a – 3b below and turn to Appendix 1 to complete the questions pertaining to the category you listed. After completing Appendix 1, return to question 4 and complete the remaining questions regarding your facility's environmental improvement initiative.

3a What units are you using to quantify this indicator? **Gallons**
(Please refer to the Environmental Performance Indicator Table for the acceptable units for each indicator.)

3b List the baseline annual quantity of the indicator and the annual quantity you are committing to achieve by the future year.

Baseline quantity	44.5 Million	Year 2007
Future year quantity (not including production)	41.5 Million	Year 2008

4 Does the quantity presented in the future quantity column represent an absolute goal or a normalized goal?
 Normalized goal (i.e., indexed to level of business in baseline year)
 Absolute goal (i.e., demonstrates improvement even if production increases)

5 Whether your goal is absolute or normalized, you will need to provide normalizing factors and normalized quantities in your annual performance reports. Please briefly describe your basis for normalizing. Examples of potential normalizing basis include: gallons of paint produced, square feet of circuit boards sold, number of patients seen, dollars of sales adjusted for inflation, or number of employees (for R&D and administrative sites only).

Sales

6a Are you subject to Federal, State, tribal, or local regulatory requirements for this indicator?
 Yes
 No

6b If yes, explain how your initiative exceeds regulatory requirements.

SECTION E

Yes. Rapid turnaround on permit modification.

3. If your facility was not registered to the ISO 14001 standard prior to becoming an ESP member, has ESP helped you to pursue registration? If so, how has ESP been instrumental in achieving registration?

We use a corporate system modeled after ISO 14001, but does not use an outside party.

4. Explain the measured or perceived results from receiving, documenting, and responding to external communication.

Gain community support, develop rapport

5. How have community residents and businesses reacted to your facility participating in the Indiana Environmental Stewardship Program?

Favorably

6. According to the measurement program developed and implemented by your facility to measure Environmental Management System success, is your facility's EMS successful? Why or why not? If not, what changes will be made to ensure continual environmental improvement and future EMS success?

Yes. Reduced utility use and associated costs. Created awareness among employees.
