## **AFFIDAVIT OF UNITED STATES SOURCED MATERIALS AND COMPONENTS**

September 16, 2021

To Whom It May Concern,

Fire Facilities Inc. is a manufacturer of custom-built fire training structures and mobile units. Our operations, including sales, engineering, fabrication, and assembly are located in Sun Prairie, Wisconsin. This document affirms that our custom-built fire-training towers and mobile burn trainers are manufactured from United States (U.S.) sourced goods and raw materials, and that total is significantly more than 50 percent of the total cost of the completed unit.

We take great pride in being an American Manufacturer, and as such we make every effort to utilize U.S. sourced suppliers for our outsourced components and goods. Although a precise amount from one project to the next may vary slightly, we are confident in stating that our completed "Mobile Trainee" Live-Fire Training Unit contains more than 85% (percent) of U.S. sourced materials and costs.

Respectfully Submitted,

Aaron Adams, President  
Fire Facilities Inc.
