Re: Environmental Protection Agency's finding of "no historic properties affected" concerning removal of source soil near the municipal wellfield for future groundwater remediation of VOC's and hot spot removal of lead and arsenic in the surface soil around 129 West Main Street using Brownfields revolving loan grant funds (DHPA #22521)

Dear Ms. Polston:

Pursuant to Section 106 of the National Historic Preservation Act (54 U.S.C. § 306108) and 36 C.F.R. Part 800, the staff of the Indiana State Historic Preservation Officer ("Indiana SHPO") has conducted an analysis of the materials dated July 12, 2018 and received on July 16, 2018, for the above indicated project in Elwood, Madison County, Indiana.

We concur with the U.S. Environmental Protection Agency's July 12, 2018 finding that there are no historic buildings, structures, districts, objects, or archaeological resources within the area of potential effects that will be affected by the above indicated project provided that the project activities remain within areas disturbed by previous construction.

If any prehistoric or historic archaeological artifacts or human remains are uncovered during construction, demolition, or earthmoving activities, state law (Indiana Code 14-21-1-27 and 29) requires that the discovery must be reported to the Department of Natural Resources within two (2) business days. In that event, please call (317) 232-1646. Be advised that adherence to Indiana Code 14-21-1-27 and 29 does not obviate the need to adhere to applicable federal statutes and regulations, including but not limited to 36 C.F.R. 800.

If you have questions about archaeological issues please contact Cathy Draeger-Williams at (317) 234-3791 or [cdraeger-williams@dnr.IN.gov](mailto:cdraeger-williams@dnr.IN.gov). If you have questions about buildings or structures please contact Miriam Burkett at (317) 233-3883 or [mburkett@dnr.IN.gov](mailto:mburkett@dnr.IN.gov).

Very truly yours,

Christopher A. Smith  
Deputy Director  
Indiana Department of Natural Resources
