

INDOT 2006-2030 LRP Update Coordination Meeting:
**Kokomo Howard County MPO, Greenfield District and
Federal Highway Administration Review of INDOT Project
Selection for The Years 2016-2030**

After a telephone conversation with Larry Ives, Director of the Kokomo Howard County MPO, it was determined by Mr. Ives that a meeting or teleconference was not necessary for their MPO as there are no Expansion Projects selected for that area for the 2017-2030 time frame of the INDOT 2006-2030 LRP/IPOC Update.

The Major Expansion Project for the Kokomo Howard County MPO is the Kokomo Bypass. That project is included in the 2006 - 2015 “Major Moves” time frame of the INDOT LRP/IPOC Update. Based on the IPOC project selection process and limited budget, there were no additional Major Expansion Projects identified for the subject area for the remaining 2017 – 2030 time frame. Therefore, Mr. Ives determined there was no need for a meeting or teleconference call to discuss this issue.
