# Independent Auditor's Report 

## Report on the Audit of the Schedules

## Opinions

We have audited the Schedule of Non-Employer Allocation of the Indiana Public Retirement System Teachers' Pre-1996 Defined Benefit Account (Plan) as of and for the years ended June 30, 2022 and 2021, and the related notes. We have also audited the total for all entities of the columns titled beginning net pension liability, ending net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense (specified non-employer column totals) included in the accompanying Schedule of Non-Employer Pension Amounts of the Plan as of and for the year ended June 30, 2022, and the related notes. We have also audited the Schedule of Employer Allocation of Special Funding Situation Pension Amounts of the Plan, including the weighted proportionate share factor and the total for all entities of the columns titled employer's share of non-employer contributing entity contributions, employer's share of pension expense, and net pension liability associated with employer (specified special funding situation column totals) included in the Schedule of Employer Allocation of Special Funding Situation Pension Amounts as of and for the year ended June 30, 2022, and the related notes.

In our opinion, the accompanying schedules referred to above present fairly, in all material respects, the non-employer allocation and the beginning net pension liability, ending net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of the non-employer entity for Indiana Public Retirement System Teachers' Pre-1996 Defined Benefit Account (Plan) as of and for the year ended June 30, 2022, as well as the special funding situation employer allocation, by weighted proportionate share factor as of and for the year ended June 30, 2022, and the total for the employer entities of the column titled employer's share of the total non-employer contributing entity contributions, total employer's share of pension expense and total net pension liability associated with the employer as of and for the year ended June 30, 2022, in accordance with accounting principles generally accepted in the United States of America.

## Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Schedules section of our report. We are required to be independent of the Indiana Public Retirement System (System) Teachers' 1996 Pre-1996 Defined Benefit Account and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Responsibilities of Management for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibilities for the Audit of the Schedules

Our objectives are to obtain reasonable assurance about whether the schedule of non-employer allocation, the specified column totals included in the schedule of non-employer pension amounts of the plan and the schedule of employer allocation of special funding situation pension amounts of the plan, including the weighted proportionate share factor and the total for all entities of the columns titled employer's share of non-employer contributing entity contributions, employer's share of pension expense, and net pension liability associated with employer (specified special funding situation column totals) by employer are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the schedule of employer allocations and the specified totals included in the schedule of pension amounts by employer, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the schedule of employer allocations and the specified totals included in the schedule of pension amounts by employer.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Indiana Public Retirement System (System) Teachers' 1996 Defined Benefit Account's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the schedule of employer allocations and the specified totals included in the schedule of pension amounts by employer.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Other Matters

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the Indiana Public Retirement System (System), which includes the Teachers' 1996 Defined Benefit Account as of and for the year ended June 30, 2022, and our report thereon, dated December 8, 2022, expressed an unmodified opinion on those financial statements.

## Restriction on Use

Our report is intended solely for the information and use of the System management, the Board of Trustees, the Plan's non-employer contributing entity and Plan's employers and their auditors and is not intended to be, and should not be, used by anyone other than these specified parties.

## Indiana Public Retirement System

Teachers' Pre-1996 Defined Benefit Account<br>Notes to the Schedules of Non-Employer Allocation and Non-Employer Pension Amounts and Employer Allocation of Special Funding Situation Pension Amounts<br>Year Ended June 30, 2022

## Summary

The purpose of these schedules is to provide the non-employer contributing entity and the Plan's participating employers the information needed for their financial statements as it relates to reporting for Governmental Accounting Standards Board (GASB) Statement No. 68. As of the measurement date, the Schedule of Non-Employer Allocation and Non-Employer Pension Amounts provide the non-employer contributing entity with its proportionate share of the collective net pension liability, collective deferred outflows and inflows of resources, and collective pension expense. The collective net pension liability as of the previous measurement date is provided as a beginning balance. Collective deferred outflows and inflows of resources, and collective pension expense include non-employer contributing entity's proportionate share of plan level amounts such as differences between expected and actual experience, the net difference between projected and actual investment earnings on pension plan investments and changes in assumptions. Additionally, the Schedule of Allocation of Special Funding Situation Pension Amounts provide the participating employers with the amount of the non-employer contributing entity's net pension liability, collective pension expense and non-employer contributions associated with each participating employer.

## Plan Description

The Teachers' Pre-1996 Defined Benefit Account is a pay-as-you-go, cost-sharing, multiple-employer defined benefit pension plan administered by the Indiana Public Retirement System (INPRS). Membershipis closed to new entrants. For additional details about this plan, refer to Note 1 Descriptions of System and Funds in the Annual Comprehensive Financial Report (ACFR) located on the System's webpage.

## Special Funding Situation

GASB Statement No. 68 states that special funding situations are defined as circumstances in which a non-employer entity is legally responsible for making contributions directly to a pension plan that is used to provide pensions to the employees of another entity or entities and the amount of contribution is not dependent upon one or more events unrelated to pensions. Non-employer contributing entity contributions are appropriated to cover the state's actuarial liability for each member covered by the Teachers' Pre-1996 Defined Benefit Account by the State of Indiana in accordance with IC 5-10.4-2-4. Contributions from a participating employer may occur in specific cases when an active member is paid from federal funds. These contributions are based on a rate which was estimated to be the normal cost for the period covered and all future contributions toward pension benefits are the responsibility of the non-employer contributing entity.

Since participating employers do not contribute directly to the Plan, there is no pension liability or deferred outflows or inflows to report in their respective financial statements. However, the notes to the financial statements must disclose the portion of the non-employer contributing entities' total proportionate share of the collective net pension liability that is associated with each employer in the Plan. In addition, each employer must recognize the pension expense as well as revenue in an amount equal to the nonemployer contributing entities' total proportionate share of the collective pension expense associated with the employer.

## Basis of Allocation

In determining the proportionate share of the net pension liability and corresponding pension amounts for a cost-sharing plan, the basis should be consistent with the manner in which contributions to the Plan are determined, excluding those to separately finance specific liabilities of an individual employer. INPRS has determined that the actual contributions made to the Plan during the fiscal year are appropriate as they are representative of future contributions.

The basis to determine participating employer's proportionate share of the various pension related amounts associated with the Special Funding Situation is a weighted calculation using a combination of wages reported by employers relative to the collective wages of the plan, and benefits paid to retirees of employers relative to total benefits paid by the plan. The weighted calculation is determined by the non-retirees and retirees respective of net pension liabilities as reported by the actuary based on the Plan's census data as of 2022. This method is utilized as it provides a more equitable distribution so that employers with no active employees continue to report a proportionate share of the pension amounts associated with it. For 2022, the weighted calculation is 29.3 percent for wages and 70.7 percent for benefits paid.

## Collective Net Pension Liability

The components of the collective net pension liability of the non-employer contributing entity as of June 30, 2022 are as follows:

| Total pension liability | $\$ 14,059,122,476$ |
| :--- | ---: |
| Plan fiduciary net position | $5,113,121,284$ |
|  |  |

## Actuarial Assumptions

The collective total pension liability for the June 30, 2022 measurement date was determined by an actuarial valuation as of June 30, 2021 using member census data as of June 30, 2021. Standard actuarial roll-forward techniques were used to project the total pension liability computed as of June 30, 2021 to the June 30, 2022 measurement date. The valuation was performed using the assumptions in place at the time of the valuation as reported within the System's Annual Comprehensive Financial Report as of June 30, 2022.
For details, please refer to Note 8 of the System's June 30, 2022 ACFR, which can be found on the INPRS website at:

## https://www.in.gov/inprs/annualreports.htm

There were no changes in actuarial assumptions for the June 30, 2022 actuarial valuation. An assumption study was concluded in February 2020 and an asset-liability study was concluded in May 2021.

The resulting key actuarial assumptions are as follows:

- The investment return assumption is 6.25 percent.
- The price inflation assumption is 2.00 percent per year.
- Future salary increase rates are a service-based table ranging from 2.65 percent to 11.90 percent per year.
- The following COLAs, compounded annually, are assumed: 0.4 percent beginning on January 1, 2024, 0.5 percent beginning on January 1, 2034, and 0.6 percent beginning on January 1, 2039.
- The mortality tables are based upon the Pub-2010 family of tables, with specific adjustments for healthy employees, retirees, beneficiaries, and disabled members. Mortality tables are all projected generationally using SOA Scale MP-2019.

For further information reference Appendix C in the TRF '96 Actuarial Valuation report located at:

## https://www.in.gov/inprs/publications/actuarial-valuation-reports/

The change in the collective net pension liability (asset) for fiscal year 2022 is calculated as set forth in the following table:

| Net pension liability - beginning | 9,263,437,176 |
| :--- | ---: | ---: |
| Total pension expense | $546,006,341$ |
| Change in deferred outflows of resources | $596,162,656$ |
| Change in deferred inflows of resources | $93,010,374$ |
| Employer contributions | $(2,205,029)$ |
| Nonemployer contributions | $(1,550,410,326)$ |
| $\quad$ Net pension liability - ending | $\$ 8,946,001,192$ |

## Amortization of Collective Deferred Outflows and Inflows of Resources

Annual changes to the net pension liability (asset) resulting from differences between expected and actual experience with regard to economic and demographic factors, and from changes of assumptions about future economic or demographic factors or other inputs are deferred and amortized over the average of the expected service lives of all plan participants.

The average expected remaining service lives of the members of the pension plan are determined by taking the calculated total future service years of the plan divided by the number of people in the plan including retirees. The total future service years of the plan are determined using the mortality, termination, retirement and disability assumptions associated with the plan.

## Teachers' Pre-1996 Defined Benefit Account <br> Notes to the Schedules of Non-Employer Allocation and Non-Employer Pension Amounts and Employer Allocation of Special Funding Situation Pension Amounts Year Ended June 30, 2022

The average expected remaining service lives is used to amortize all deferred outflows and inflows of resources, except for the difference between expected and actual investment earnings, which is amortized over five years.

## Collective Pension Expense

The components of the collective pension expense, for the year ended June 30, 2022, comprises the following:

| Service cost | \$ |
| :--- | ---: |
| Interest on the total pension liability | $861,851,735$ |
| Pension plan administrative expenses | $5,067,084$ |
| Projected earnings on plan investments | $(329,198,485)$ |
| Plan amendments | - |
| Recognition of outflow (inflow) of resources due to amortization | $(24,502,660)$ |
| Miscellaneous (income)/expense | $(579)$ |
| $\quad$ Total pension expense | $\$ \mathbf{5 4 6 , 0 0 6 , 3 4 1}$ |
