## INDEPENDENT AUDITORS' REPORT

## TO: THE OFFICIALS OF THE INDIANA STATE TEACHERS' RETIREMENT FUND

We have audited the accompanying statement of plan net assets of the Indiana State Teachers' Retirement Fund as of June 30, 2001, and the related statement of changes in plan net assets for the year then ended. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and Government Auditing Standards. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the financial statements of the Indiana State Teachers' Retirement Fund are intended to present the financial position and results of operations of only the portion of the funds of the State that are attributable to the transactions of the fund.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Indiana State Teachers' Retirement Fund as of June 30, 2001, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the financial statements taken as a whole. The required supplemental schedules as listed in the table of contents are presented for purposes of additional analysis and are required disclosure for the Teachers' Retirement Fund. This information has been subjected to auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Supplemental schedules and related financial information, as prescribed by the Fund's management, are included for purpose of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the examination of the basic financial statements, and accordingly, we express no opinion on them.

## INDIANA STATE TEACHERS' RETIREMENT FUND NOTES TO FINANCIAL STATEMENTS

June 30, 2001

## Note 1. Summary of Significant Accounting Policies

A. Reporting Entity - The financial statements presented in this report represent only those funds that the Indiana State Teachers' Retirement Fund (TRF) has responsibility for and are not intended to present the financial position or results of operations of the State of Indiana or all of the retirement and benefit plans administered by the State. Effective July 1, 2000, TRF became an independent corporate and politic (Public Law 119-2000). TRF is not a department or agency of the State but is an independent body corporate and politic exercising essential government functions. Although TRF is not a state agency, it is a component unit of the State of Indiana for financial statement reporting purposes.
B. Basis of Presentation - The financial statements of the Indiana State Teachers' Retirement Fund have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for established governmental accounting and financial reporting principles.
C. Fund Accounting - Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. The Indiana State Teachers' Retirement Fund is a pension trust fund. For a description of this fund, see Note 2.
D. Basis of Accounting - The records of this Fund are maintained on a cash basis. The accrual basis is used for reporting purposes.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Pension trust funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included in the balance sheet.
E. Budgets - A budget for the administrative expenses is prepared and approved by the Board of Trustees.
F. Deposits and Investments - The Treasurer of State acts as the official custodian of the cash and securities, except for securities held by banks or trust companies under custodial agreements with the Board of Trustees. The Board of Trustees may contract with investment counsel, trust companies, or banks to assist the Board in its investment program. The Board is required to diversify investments in accordance with prudent investment standards. The Board has issued investment guidelines for its investment program which authorized investments of: U.S. Treasury and Agency obligations, U.S. Government securities, common stock, international equity, corporate bonds, notes and debentures, repurchase agreements secured by U.S. Treasury obligations, mortgage securities, commercial paper, and banker's acceptances. See Note 4 for more details.
G. Method Used to Value Investments - GASB 25 requires that investments of defined benefit plans be reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have an established market are reported at estimated fair value.

H. Equipment - Equipment with a cost of $\$ 5,000$ or more is capitalized at the original cost. Depreciation is computed on the straight-line method over the estimated five year life of all assets.
I. Contributions Receivable - The contributions receivable was determined by using actual contributions received in July for days paid in the quarter ended June 30, 2001.
J. Inventories - Inventories of consumable supplies are not recognized on the balance sheet as they are considered immaterial. Purchases of consumable supplies are recognized as expenditures at the time of purchase.
K. Reserves and Designations

The following are the legally required reserves and other designations of fund equity:

1. Member Reserve: The member's reserve represents member contributions made by or on the behalf of the employees plus any interest distributions, less amounts refunded or transferred to the Benefits in Force reserve for retirement disability, or other benefit. For Indiana State Teachers' Retirement Fund this reserve is the employees' annuity savings account.
2. Benefits in Force: This reserve represents the actuarially present value of future benefits for all members who are presently retired or disabled. The accumulated contributions of the members are transferred to the reserve upon retirement or disability. The remainder of the actuarial pension cost is transferred from the employer reserve to fund the benefits. This reserve contains $\$ 1,833,040,979$ for the Pension Stabilization Fund. The Pension Stabilization Fund was established by IC 21-6.1-2-8.
3. Employer Reserves: This reserve consists of the accumulated employer contributions plus earnings distributions less transfers made to the Benefits in Force reserve of the actuarial pension cost.
4. Undistributed Investment Income Reserve: This reserve was credited with all investment earnings. Interest transfers have been made annually to the other reserves as allowed or required by statutes. The transfers are at rates established by the Board of Trustees.

The following are the balances of the reserves and designations of fund equity:

| Member <br> Reserve | Employer <br> Reserve | Benefits <br> In Force | Undistributed <br> Income |
| :---: | :---: | :---: | :---: |
| 2.654 .185 .073 |  |  |  |
| 223.259 .318 | $\mathbf{2 , 7 0 7 . 6 4 0 , 0 0 3} \mathbf{\$ 2 2 5 . 6 7 5 . 1 7 0}$ |  |  |

L. Payables and Liabilities - Payables and liabilities are not maintained throughout the year on the accounting records. They are calculated or estimated for financial statement reporting purposes and are posted to the general ledger at year end.

(Continued)
M. Compensated Absences - Full-time employees of the Indiana State Teachers' Retirement Fund are permitted to accumulate earned but unused vacation and sick pay benefits. Vacation leave accumulates at the rate of one day per month and sick leave at the rate of one day every two months plus an extra day every four months. Bonus vacation days are awarded upon completion of five, ten and twenty years of employment. Personal leave days are earned at the rate of one day every four months; any personal accumulated in excess of three days automatically becomes part of the sick leave balance. Upon separation of service, in good standing, employees will be paid for a maximum of thirty unused vacation leave days.

No liability is reported for unpaid accumulated sick leave. Vacation and personal leave and salaryrelated payments that are expected to be liquidated with expendable available financial resources are reported as an expenditure and as Accrued Compensated Absences Payable.

## Note 2. Fund Description

The Indiana State Teachers' Retirement Fund is the administrator of a multiple-employer retirement fund established to provide pension benefits for persons who are engaged in teaching or in the supervision of teaching in the public schools of the state. At June 30, 2001, the number of participating school unit employers was:

| Public School Units | 317 |
| :--- | ---: |
| Higher Education Units | 4 |
| State of Indiana Agencies | 29 |
| Associations | $\underline{3}$ |
| Total Employers | $\underline{\underline{353}}$ |

Membership in the Fund is required for all legally qualified and regularly employed teachers who serve in the public schools of Indiana, including the faculty at Vincennes University. Additionally, faculty members at Ball State University, Indiana State University, and University of Southern Indiana have the option of selecting membership in the Fund or the alternate University Plan. As of July 1, 2000, Indiana State Teachers' Retirement Fund membership consisted of:

| Retirees and Beneficiaries Currently Receiving Benefits | 32,878 |
| :--- | ---: |
| Active Plan Members | 77,870 |
| Terminated Plan Members Entitled to But Not Yet Receiving Benefits | 4,331 |
|  |  |
| Total | $\underline{115,079}$ |

The Indiana State Teachers' Retirement Fund provides retirement benefits, as well as death and disability benefits. Eligibility to retire occurs at age fifty with fifteen or more years of service or at age sixty-five with ten years of service. Annual retirement benefits, disability benefits, and death benefits are computed as follows:

# INDIANA STATE TEACHERS' RETIREMENT FUND NOTES TO FINANCIAL STATEMENTS <br> June 30, 2001 <br> (Continued) 

## Regular Retirement (No Reduction Factor For Age)

Eligibility - Age sixty-five with ten years service or age fifty-five with age plus years of service equaling at least eighty-five or age sixty with at least fifteen years of service.

Mandatory Retirement Age - none.
Annual Amount - State pension equal to total years of service times $1.1 \%$ of final average salary; plus an annuity purchased by the member's accumulated contributions unless the member elects to withdraw the accumulated contributions in a lump sum.

Type of Final Average Salary - Average of highest five years.

## Early Retirement (Age Reduction Factor Used)

Eligibility - Age fifty with fifteen or more years service.
Annual Amount - State pension is computed as regular retirement benefit but reduced one-tenth of $1 \%$ for each month age at retirement is between sixty and sixty-five and five-twelfths of $1 \%$ for each month under age sixty.

## Deferred Retirement (Vested Benefit)

Eligibility - Ten years of service. Benefit commences at age sixty-five, or at age fifty if member has fifteen or more years of service.

Annual Amount - Computed as a regular retirement benefit with state pension based on service and final average salary at termination.

## Regular Disability

Eligibility - Five years of service.
Annual Amount - \$125 per month plus $\$ 5$ for each year of service credit over five years.

## Disability Retirement (No Reduction Factor For Age)

Eligibility - Five years of service and also qualify for Social Security Disability at time of termination.
Annual Amount - Computed as a regular retirement benefit with state pension based on service and final average salary at termination.

# INDIANA STATE TEACHERS' RETIREMENT FUND NOTES TO FINANCIAL STATEMENTS <br> June 30, 2001 <br> (Continued) 

## Duty Death Before Retirement

Eligibility - Fifteen years of service. Spouse to whom member had been married for two or more years is automatically eligible, or a dependent may be designated as beneficiary.

Annual Amount - Computed as regular retirement benefit but reduced in accordance with a $100 \%$ joint and survivor election.

Benefit Increases After Retirement: No automatic increases after retirement are provided. Unscheduled increases have been made from time to time.

Each member shall, as a condition of employment, contribute to the Fund $3 \%$ of his/her compensation. Effective July 1, 1986, each employing unit may elect to "pick up" the employee contribution. No part of the member contributions to the Fund picked up by the employer is includable in the gross income of the member. The "pick up" amount does count in the salaries used to determine the final average at retirement. Any member who leaves covered employment has the option to withdraw accumulated contributions and interest. In the event of a death of a member who has served less than fifteen years or does not meet the surviving spouse requirements, their designated beneficiary or estate is entitled to a lump sum settlement of their contributions plus interest.

Indiana pension statutes stipulates that each member of the Fund shall have the opportunity to direct their annuity savings account into one of five current investment programs:

1. The Guaranteed Fund - Interest is credited at a rate annually determined by the Board of Trustees. Principal and interest are "guaranteed." Market risk is assumed by the Fund.
2. The Bond Fund - Contains high quality fixed-income instruments which provide interest/capital gain income. Market risk is assumed by the member.
3. S \& P 500 Index Fund - Closely tracts the return on the S \& P 500 Index by employing an indexing strategy that invest in the stocks of the $\mathrm{S} \& \mathrm{P} 500$ Index companies. Market risk is assumed by the member.
4. Small Cap Equity Fund - Consist of stocks with a market capitalization of less than $\$ 1.5$ billion. Market risk is assumed by the member.
5. International Equity Fund - Consists of securities of developed non-U.S. countries. Market risk is assumed by the member.

The Guaranteed Fund, Bond Fund, S \& P 500 Index Fund, Small Cap Fund and International Fund are valued at market value. When a member retires, dies or suspends membership and withdraws from the fund, the amount credited to the member shall be valued at the market value of the member's investment plus accrued interest on investment less accrued investment expenses.

Members may only make a selection or re-allocation once during any twelve month period. The changes will be in effect the first month of the quarter following the request for change. Members may request allocations to one or all of the approved funds, as long as those allocations are made in $10 \%$ increments of the total balance in the member's account at the time of allocation. The total must equal $100 \%$.

June 30, 2001
(Continued)

Note 3. Employer Contributions Required and Employer Contributions Made
The Indiana State Teachers' Retirement Fund is funded on a "pay as you go" basis for employees hired prior to July 1, 1995. State appropriations are made for the amount of estimated pension benefit payout for each fiscal year. For employees hired on or after July 1, 1995, the individual employer will make annual contributions. These contributions are actuarially determined.

Based on the actuarial valuation at June 30, 2000, employer actuarially required contributions were $\$ 537,789,669$ normal cost, with no amortization of the unfunded actuarial accrued liability and zero provision for expenses. Contributions made by employers for the year ended June 30, 2001, totaled $\$ 692,892,050$ which was $25.2 \%$ of covered payroll.

Note 4. Cash, Investments and Securities Lending
Investments made by the Indiana State Teachers' Fund, including repurchase agreements, are summarized below. The investments that are represented by specific identifiable investment securities are classified as to credit risk by the three categories described below:

Category 1 includes investments that are insured or registered or for which securities are held by the State or its agent in the State's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or its agency in the State's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent but not in the State's name.

State statutes and Board of Trustees permit the Fund to lend securities to broker-dealers and other entities (borrowers) for collateral that will be returned for the same securities in the future. The Fund's custodial bank manages the securities lending program and receives securities or cash as collateral. The collateral securities cannot be pledged or sold by the Fund unless the borrower defaults, but cash collateral may be invested by the Fund. Collateral securities and cash are initially pledged at $102 \%$ of the market value of the securities lent. No more than $40 \%$ of Teachers' Retirement Fund's total assets may be lent at any one time. At year-end, Teachers' Retirement Fund has no credit risk exposure to borrowers because the amount Teachers' Retirement Fund owes the borrowers exceed the amounts the borrowers owe Teachers' Retirement Fund.

Approximately $25 \%$ of the securities loans can be terminated on demand either by the Fund or by the borrower, although generally the average term of these loans is one day. Cash collateral is generally invested in securities of a longer term, generally with maturities up to one year, and the weighted-average term to maturity of all collateral investments was thirty days.

Note 5. Employee Retirement System
The State of Indiana contributes to the Indiana Public Employees' Retirement Fund (PERF), an agent multiple-employer retirement system which acts as a common investment and administrative agent for state employees and employees of the various subdivisions of the State of Indiana. In addition, the State of Indiana contributes to the Indiana State Teachers' Retirement Fund (TRF) for state employees who are eligible to be members of that plan. The payroll for the employees covered by Indiana State Teachers' Retirement Fund for the year ended June 30, 2001, was $\$ 193,480$ and the payroll for the employees covered by Indiana Public Employees' Retirement Fund was $\$ 907,268.85$.

All full-time employees covered by PERF are required to participate in the plan. State statutes govern most requirements of the system, including the benefits which vest after ten years of service. Employees who retire may receive benefits with fifteen years of service if they have reached fifty years of age. An employee may receive benefits at age sixty-five with ten years of service. All full-time employees covered by TRF and retiring after May 1, 1989, may receive normal benefits at age sixty with at least fifteen years of service; or the member is at least fifty-five years of age and the years of age and years of creditable service add up to at least eighty-five.

The plan is a defined benefit plan. Contributions equal to three percent of each employee's compensation is required which may be paid by the employer or withheld from employees. TRF pays the three percent contribution for its employees. Benefits from this three percent depends on the amount contributed, plus investment earnings. Employees who leave employment before qualifying for benefits receive this accumulated contribution, plus the investment earnings credited.

PERF's funding policy provides for actuarially determined periodic contributions at rates that, for individual employees, increase gradually over time so that sufficient assets will be available to pay benefits when due. The rate for the State's employee group as a whole has tended to remain level as a percentage of annual covered payroll. PERF uses the entry age normal cost method to determine the contribution requirements and the actuarial accrued liability. The State's annual contribution to PERF consists of the amortization of the unfunded actuarial accrued liability (expressed as a level dollar amount), plus the entry age normal cost (expressed as a percentage of total payroll).

The amortization of the unfunded actuarial accrued liability is the level dollar payment necessary to amortize the unfunded actuarial accrued liability. The initial 1975 liability is being amortized over forty years from the date of change, with the exception that changes in liabilities due to cost of living adjustments are being amortized over fifteen years. The entry age normal cost is determined on an individual basis and then increased proportionally to account for PERF operational expenses. TRF, on the other hand, is funded on a pay-as-you-go basis for employees hired prior to July 1, 1995, with the state appropriating only the amount necessary to fund the benefits due in a particular year. For employees hired on or after July 1, 1995, the employer makes annual contributions. The General Assembly is required to appropriate an amount sufficient to cover the state's actuarial liability for each member covered by the pre1996 account and for each state employee covered by the 1996 account.

## Note 6. Deferred Compensation Plan

The State offers its employees a deferred compensation plan (the plan) created in accordance with Internal Revenue Code Section 457. The plan, available to all State employees and employees of certain quasiagencies and political subdivisions within the State, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) held for the exclusive benefit of participants of the plan and their beneficiaries as required by section $457(\mathrm{~g})$ of the Internal Revenue Code. In addition, the State has an Indiana Incentive Match Plan which provides $\$ 15$ per pay period for each employee who contributes to the 457 Plan.

The state has established a deferred compensation committee that holds the fiduciary responsibility for the plan. The committee holds the deferred amounts in an expendable trust.

## Note 7. Contingent Liabilities

The Indiana State Teachers' Retirement Fund is defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, the resolution of these matters will not have a material or adverse effect on the financial condition of the Fund. Tort claims are paid from the General Fund of the State of Indiana through the Attorney General's Office and are not paid by the Fund.

## A ctuarial Report

April 8, 2002

The Board of Trustees
Indiana State Teachers' Retirement Fund
Indianapolis, Indiana
Dear Board Members:

We hereby certify that the actuarial valuation of active and retired members of the Indiana State Teachers' Retirement Fund (ISTRF) as of June 30, 2001 was made in accordance with generally recognized actuarial methods.

It is our opinion that the actuarial information contained in the valuation report is complete and accurate, and was based upon the following:
(i) Data furnished by the Director of ISTRF concerning active and inactive members, retired members, and beneficiaries as well as relevant financial information. This data was not audited by us but was checked for completeness, reasonableness and year-to-year consistency.
(ii) Assumptions, adopted by the Board of Trustees after consultation with the actuary, which relate to the experience of the Fund and which produce results we believe are reasonable.

The results of the valuation as shown in our report reflect that employer contributions have been based on amounts needed for cash benefit payments.

A sound financial objective is to contribute amounts which, expressed as percents of active member payroll, will remain level from generation to generation of Indiana citizens, pursuant to IC Sec. 5 -10.2-2-11. State legislation enacted in 1993 implements this financial objective for teachers hired after June 30, 1995. The actuarial valuation was made in accordance with the principles of this financial objective.

Respectfully submitted,

Brian F. Dunn, ASA, MAAA, EA

# ACTUARIAL REPORT-ANNUAL REPORT 2001 <br> SUMMARY OF VALUATION RESULTS <br> June 30, 2001 

## I. Unfunded Actuarial Accrued Liability

The actuarial accrued liability is the present value of benefits the Fund promises to pay in the future based upon service already rendered - a liability has been established ("accrued") because the service has been rendered, but the resulting monthly cash benefits may not be payable until years in the future. If the actuarial accrued liability at any time exceeds the Fund's accrued assets (cash and investments), the difference is called the unfunded actuarial accrued liability.

## Actuarial Accrued Liability: Computed and Unfunded

| Amounts as of June 30, 2001 | Closed Plan | New Plan | Total |
| :--- | ---: | ---: | ---: | ---: |
|  |  |  |  |
| Computed actuarial accrued liability | $\$ 12,695,787,691$ | $\$ 828,038,282$ | $\$ 13,523,825,973$ |
| Allocated assets | $5,363,497,813$ | $447,261,751$ | $5,810,759,564$ |
|  |  |  |  |
| Unfunded Actuarial Accrued Liability | $\$ 7,332,289,878$ | $\$ 380,776,531$ | $\$ 7,713,066,409$ |

# ACTUARIAL REPORT-ANNUAL REPORT 2001 Summary of Valuation Results <br> (Continued) <br> June 30, 2001 

## II. Computed Employer Contribution Rates - June 30, 2001

|  | Employer Contributions <br> As \%'s of Active Payroll |  |
| :--- | :---: | :---: |
|  | Closed Plan <br> 38 Year <br> Amortization <br> of UAAL | New Plan <br> 38 Year <br> Amortization <br> of UAAL |
|  |  |  |
| Normal Cost: |  |  |
| Age and Service Pensions | $6.95 \%$ | $7.11 \%$ |
| Disability and Death-in-Service | $0.37 \%$ | $0.35 \%$ |
| Totals | $7.32 \%$ | $7.46 \%$ |
| Unfunded Actuarial Accrued Liability (UAAL): |  |  |
| Retired Members and Beneficiaries | $2.05 \%$ | $0.00 \%$ |
| Active and Inactive Vested Members | $8.48 \%$ | $1.86 \%$ |
| Totals | $10.53 \%$ | $1.86 \%$ |
| Computed Employer Contribution Rates | $\mathbf{1 7 . 8 5 \%}$ | $\mathbf{9 . 3 2 \%}$ |

The New Plan UAAL contribution is primarily attributable to members with prior service. Additional liabilities transferred as a result of prior service would likely require additional funding.

## III. Test of Financial Condition

If the contributions to ISTRF are level in concept and soundly executed, the Fund will pay all promised benefits when due -- the ultimate indicator of financial soundness.

One short-term means of checking a fund's progress under its funding program is shown below. In this indicator, the fund's present assets (cash and investments) are compared with:

1) active member contributions on deposit;
2) liability for future benefits to present retired members; and
3) liability for service already rendered by active members.

In a fund that has been following the discipline of level percent-of-payroll financing, the liability for active member contributions on deposit (Liability l) and the liability for future benefits to present retired members (Liability 2 ) will be fully covered by present assets (except in rare circumstances). In addition, the liability for service already rendered by active members (Liability 3) will be partially covered by the remainder of present assets. The State's past practice of contributing on a "pay-as-you-go" basis has resulted in Liability 2 being less than $100 \%$ funded in the Closed Plan.
