- I. **Call to Order:**
- II. **Update on Demand/Supply Analysis Information for Central Indiana**
- III. **CTE Awareness Grant Update**

Timeline for Review of Innovative Curriculum Grants due in early January. Members decided to have all grant applicants come in and present their ideas to the Works Council for consideration. Want programs to have a top down approach with innovative programs that feed up. The top-down needs to be “coordination, vision, collaboration”
- IV. **Discussion of Strategic Plan**

How do we move the Works Council forward? Should the group become more of an advocacy group? Need to look more in depth at internships and then start to stretch down. Look into the Iowa Model and their regional score card.
- V. **Other Business**
- VI. **Adjournment**
