| 20+ | | Do not eat | |
| Largemouth Bass | up to 15 | Do not eat | |
| | 15+ | Do not eat | |

Sensitive Population

*Sensitive populations include: pregnant or nursing women, women that will become pregnant, and children under 6 years of age. These consumers should use caution when eating some types of sportfish.

**The maximum amount for adults to eat is determined by fishing location, species and fish length. For instance, if you eat the maximum amount of one species during a week, you should not eat any other fish which has a consumption limitation until the following week. Example - if you eat the limit (4 ounces) of a 20 inch long Carp from the Easy Catch River, then you should not eat any other sportfish from the list until the following week.

Sensitive Population - FISH CONSUMPTION ADVISORY

| Location | Species | Fish Size | Maximum Amount for Adults to Eat |
|----------|-----------------|-----------|----------------------------------|
| | Silver Redhorse | 17+ | Do not eat |
| | White Crappie | up to 11 | 1 meal / week (8 ounces / week) |
| | White Sucker | 11+ | Do not eat |
