	Common Carp	up to 24 22+	1 meal / month (8 ounces / month) Do not eat
	Longear Sunfish	up to 6	1 meal / week (8 ounces / week)
<b>Cagles Mill Reservoir (Cataract Lake)</b> Putnam County	Bluegill	up to 7	1 meal / week (8 ounces / week)
	White Crappie	up to 9	1 meal / week (8 ounces / week)

Sensitive Population

\*Sensitive populations include: pregnant or nursing women, women that will become pregnant, and children under 6 years of age. These consumers should use caution when eating some types of sportfish.

\*\*The maximum amount for adults to eat is determined by fishing location, species and fish length. For instance, if you eat the maximum amount of one species during a week, you should not eat any other fish which has a consumption limitation until the following week. Example - if you eat the limit (4 ounces) of a 20 inch long Carp from the Easy Catch River, then you should not eat any other sportfish from the list until the following week.
