LOCAL EXCHANGE SERVICE

I. RATE GROUPS

A. Exchange areas are classified in rate groups for the purpose of establishing local service charges. The schedule of local exchange rates is set forth in this Section.

1. Classification of Rate Groups

a) Rate Group A and C will include those exchanges that are not themselves county seats and have Extended Area Service (EAS) to only a minimal number of small exchanges, none of which are a county seat.

Exceptions to Rate Group A and C include the exchanges of Kentland, Winamac and Monterey. The exchanges of Kentland and Winamac are included in Rate Group C because of their size. The exchange of Monterey is included in Rate Group A because it has an EAS point to the county seat exchange of Winamac.

b) Rate Group B and D will include those exchanges, which are county seats and/or have EAS to exchanges, which are county seats.

c) Rate Group E will include those exchanges that have EAS into the "metro" areas of Indianapolis, Ft. Wayne or South Bend.

B. Exception rates may be applicable to certain exchanges for which a service improvement and/or EAS plan has been approved by order of the Indiana Utility Regulatory Commission. Whenever an exception rate is applicable for EAS, the access lines in the EAS plan area are excluded when determining the classification of such exchange.
