The purpose of this filing is to make multiple changes to the Company's Concurrence and Exceptions and to the Check Sheets to indicate that the Company does not concur with entire sections or with portions of certain sections of the NECA interstate Tariff F.C.C. No. 5 as detailed below. These services are interstate-only services that are not applicable on an intrastate basis.

Concurrence & Exceptions

1. **Concurrence & Exceptions Page 2:** The Company does not concur with the entire **Section 8 Digital Subscriber Line Access Services (DSL)**. West Point provides DSL on a detariffed basis as allowed by F.C.C.'s Wireline Broadband Order FCC 05-150, Released September 23, 2005 under ¶190. Therefore, the word "Yes" under the Concur column for this section was corrected to "No" and the word "None" under the West Point Exceptions column was replaced with "Not Applicable to Intrastate". Also, see bullet point 11 below.

Concurrence & Exceptions (continued)

2. Concurrence & Exceptions Page 2: The Company does not concur with the entire **Section 10 Special Federal Government Access Services**. Special Government Access Services is not applicable on an intrastate basis. The word "Yes" under the Concur column for this section was corrected to "No" and the word "None" under the West Point Exceptions column was replaced with "Not Applicable to Intrastate". Also see bullet point 13 below.
3. Concurrence & Exceptions Page 2: Since there is some language in the **Table of Contents, General Information/User Guidelines, Section 2 General Regulations, and Section 5 Access Ordering** that applies to interstate-only services; the Company is adding a footnote to indicate that any information in these aforementioned sections are not applicable on an intrastate basis. Additional Interstate-only services besides DSL mentioned in bullet point 1 above and DSL Line Port include: Access Recovery Charge, Consumer Broadband-Only Loop, End-User Access Service, Federal Universal Service Charge, ISDN Line Ports, Internet Protocol Gateway Access, Local Number Portability Presubscription, and Special Federal Government Access Services.
4. Concurrence & Exceptions Page 2: The **name of Section 3** is being revised to match the name in the NECA interstate access tariff. The name changed from "Common Carrier Line (or CCL) Access Service & Federal Universal Service Charge (or FUSC)" to "Federal Universal Service Charge, ISDN Line Ports, DSL Line Port, and Consumer Broadband-Only Charge". The Company does not concur with any of the services listed in this section. Also see bullet point 9 below.
5. Concurrence & Exceptions Page 3: The Company is correcting the sub-section number for Access Recovery Charge listed under West Point's Exception column for **Section 13 Additional Engineering, Additional Labor and Miscellaneous Services** from 13.5 to 13.15.
6. Concurrence & Exceptions Page 3: The Company is adding a comment to West Point's Exceptions column for **Section 16 Public Packet Data Network**. Sub-Section 16.4 Internet Gateway Protocol Access Service is not applicable on an intrastate basis. Therefore, the word "None" is being replaced with that sub-section and that it is not applicable to Intrastate. Also see bullet points 14 below.
7. Concurrence & Exceptions Page 3: The Company is adding 5 more sub-sections under West Point's Exceptions column for **Section 17 Rates & Charges** that do not apply on an intrastate basis. The 5 sub-sections include: 17.4.5 Special Federal Government Access Service, 17.4.8(D) Internet Protocol Gateway Access Service, 17.4.9 Digital Subscriber Line Access Services, 17.6 DSL Access Services Availability, and 17.9 Consumer Broadband-Only Loop Charge. These services are not applicable on an intrastate basis. Also see bullet points 16-19 and 22 below.
