Bikes on the Bus

All CityBus buses are equipped with bike racks. Ride your bike to the bus stop and then take it along for easy access to your destination.

How to Ride CityBus

Plan your trip

Arrive at your bus stop about five minutes before the scheduled time. Buses will stop only at designated bus stops along the route.

Be prepared with the exact cash fare (driver does not make change), token or pass, or have your mobile ticket or pass ready on your mobile device.

Catch your bus

As the bus approaches, signal the driver to pick you up by holding up your arm high in the air. Check the sign at the front of the bus for the route/destination. Tip: When flagging a bus at night, use a light source to ensure the driver can see you.

Pay your fare as you board

Cash or Tokens: Place dollar bills, coins or tokens in the farebox.

Passes: Swipe passes in the farebox.

Mobile Passes: Show driver your mobile pass.

If you need to transfer to another bus to complete your one-way trip, ask the driver for a transfer ticket when you pay your fare. Transfers are valid for a limited time, and are not valid for a return trip. Transfers are automatically embedded in passes and mobile fares.

Signal your stop

Signal the driver one block before your stop by pulling the cord. This will ring a bell and light the "stop requested" signal for the driver. Once you're off, do not cross in front of the bus.
