CONTINUE DISCUSSION OF PROPOSED PROJECT

When we left off at last month's hearing, Mr. Zimpleman was going to fund and do the work on the whole project. Surveyor Josh LeDonne met with Mr. Zimpleman after the hearing and explained that if he funds the whole project, he has to go to all the landowners and they pay him. Mr. Zimpleman thought that the payments would go through the county and in turn the county would pay him, it was explained that the county can't do that, he would be responsible to collect from the landowners. Mr. Zimpleman didn't want to do it that way, he won't be funding the project.
