Checklist for Electric Permit

An Electric Permit is required for:

- A. Any repairs or maintenance work at the meter base or service equipment which requires electrical service to be disconnected. An electrical permit and inspection are required prior to service being restored;
- B. Installation of a generator which requires electrical service to be temporarily disconnected;
- C. An upgrade from one service rating to another service rating (i.e.: upgrading from 100 amp service to 200 amp service);
- D. Reconnection of permanent service to a structure in which the electrical meter has been moved

Note: Any other electrical work will require a rehabilitation building permit to be obtained.

- Complete Application Form**
- Health Department Approval (Only if existing septic is on site and underground work to take place)**
