

FCR 2024-19

**RESOLUTION TO PURCHASE A MECALAC  
EXCAVATOR AND ATTACHMENTS**

WHEREAS the Floyd County Stormwater Board passed a Resolution requesting that the Floyd County Commissioners purchase a Mecalac 10MCR-WEX 2270 Excavator and Attachments from Wilson Equipment Company 2050 Watterson Trail, Louisville Kentucky 40299.

WHEREAS IC 36-1-4-5 states that a unit may acquire and own personal property.

WHEREAS the Floyd County Stormwater Board and Floyd County need the equipment identified in this Resolution to service the needs of the residents of Floyd County.

WHEREAS the Floyd County Stormwater Board received a bid through a Sourcewell awarded contract through Sewer Equipment Co. of America and Wilson Equipment Co. The proposal is hereby attached and incorporated by reference.

WHEREAS pursuant to IC 5-22-10-2, a special purchasing agent may make a purchase under this chapter without soliciting bids or proposals notwithstanding any other provision of this article.

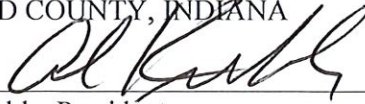

WHEREAS pursuant to IC 5-22-10-8, the purchasing agent may make a special purchase when the compatibility of equipment and a single source is a substantial consideration in the purchase. The Floyd County Commissioners find that the purchase of this unit is a substantial consideration in meeting the compatibility of Floyd County's needs. A copy of the Single Source Letter is hereby attached and incorporated by reference.

WHEREAS the Floyd County Highway Department also has a need for the equipment identified herein.

NOW, THEREFORE, BE IT RESOLVED BY THE FLOYD COUNTY COMMISSIONERS THAT the recitals above be adopted by Resolution to purchase the equipment as identified herein.

Passed and adopted by the BOARD OF COMMISSIONERS OF FLOYD COUNTY, INDIANA on the 4th day of November 2024.

BOARD OF COMMISSIONERS OF  
FLOYD COUNTY, INDIANA

Al Knable, President

John Schellenberger, Commissioner

Jason Sharp, Commissioner

ATTEST:

Diana Topping, County Auditor

Chief Dep Auditor

*Object: Letter of Conformity for Single Sourcing Requirement*

The present document is to certify that Mecalac series excavators are eligible for single sourcing due to their unique functionalities and options.

The MCR series tracked excavators are unique because of their 6.2 MPH travel speed, true skid steer/excavator functionality, CONNECT reversible quick attach system, multi-segmented boom with mid section articulation, 75HP Deutz engine with no DPF or DEF pollution control and safety valves on every hydraulic cylinder. The variable angle boom and multi segmented excavator arm offer kinematics that are unique to the Mecalac brand.

Designed with ease of maintenance in mind, the majority of service points are accessible with two feet on the ground and the diagnostic tool is available for purchase by the end user.

The hydraulic flow can be adjusted up or down from the cab through a user friendly interface and the hydraulic ports can support independent flow rates and are reversible.

No other manufacturer can offer the same options on their current products.

Kind Regards,
