				AND NARRATIVE COLUMN NS ARE DENOTED IN THE		O IN THE N	ARRAIVE COLUMN MARKED AS "R"		
Section # C NC R Narrative To Be Corrected X Establishment needs to submit a completed commisary agreement for it's 11-7-23 food prep location, Blackrock. Observed the mop sink faucet to have a hose connected to the chemical dispenser with the faucets left on. The ABV, backflow device, is not designed for constant pressure and can become stuck in an open position. A bleeder T valve should be installed or the faucet should be turned off and hoses disconnected after each use, releasing the pressure. FCHD recommends a permanent fix by installing the valve.
