

Motion to approve minutes of 8/10/20 Chris Ross, 2nd Don Parker, vote 2/0.

Clendenning Ditch: Taylor Sumerford, county surveyor, is working on plans to show the proposed route.

Gibson Ditch: Taylor has not received any update from Smooth Stone, but we are on their agenda.

Lakeview Estates: Chris Ross states a resident called in about some blow holes and the water level of the lake. Chris reached out to Mohr Drainage to have them take a look and get some estimates to us for any repairs that are needed. Chris suggests looking into a company to inspect the pond on a regular basis and treat it for algae as needed. He will get Taylor some contact information so he can look into that. Lakeview Estates has approximately \$16,000 available in fund. They will see if treating the pond would be classified the same way spraying ditches are, since maintenance is collected on it.

Adjourn

Don Parker, President
