

DRAINAGE BOARD MINUTES

AUGUST 9, 2021

ALL MEMBERS PRESENT

Motion to approve minutes from 7/26/21 Kevin Nigh, 2nd Chris Ross, vote 3/0.

Country Club Heights: Robertson Paving sent a letter apologizing for the delay on this project due to rainy weather, they have (utility) locates in place and plan to start on the project 8/10/21 or 8/11/21.

Lee Folt Ditch: Taylor Sumerford, county surveyor, states he received a call from Mike Babbitt requesting 3 dead ash trees be removed from this ditch. Taylor looked at the trees and has a farmer who is going to look at them to see if he could remove them for us. The trees are located south of Lantana and north of Eagle Brook. Taylor states this ditch needs spraying as well.

Glessner Ditch: Taylor reports they are finished with work on the Glessner Ditch for now. Now they will go plant grass. They do still need to dispose of the brush and some trees.

McPherson Ditch: Heath Eberhart states this Spring while he was doing some work, he found some beaver building dams in this ditch and further down (in the ditch the McPherson dumps into). When they cleared the top dam, it cleared all of them out. He just wanted to bring this to the Drainage Board's attention as they might run into them in the future.

Adjourn.
