Then cross over to the East side of the ditch at County Road 300 N and continue until reaching 350 N. This was approximately 5576 feet in total. The work was inspected and approved on February 26, 2024.

Meredith has visited Little Sandy several times but can only inspect so much of it due to the water being up.

Meredith met with Don Foertsch about drainage issues at his property.

Meredith was contacted by an engineering firm that will be replacing road culverts that will tie into the Willow Pond Drain. This project is scheduled for the future.
