

CYBER SHARING MATURITY MODEL

		Sharing Capabilities			Resources
Level		Score – Limited (1)	Score – Progressing (2)	Score – Optimizing (3)	
1	Cyber Threat Awareness	<ul style="list-style-type: none"> - Signed up for news feeds. - Email lists. 	<ul style="list-style-type: none"> - RSS feeds to applications (i.e., Slack) - Member of an ISAC/ISAO. 	<ul style="list-style-type: none"> - Direct feeds to security tools (i.e., APIs for automatic feeds) 	<ul style="list-style-type: none"> • DHS Cyber Information Sharing and Collaboration Program (CISCP) • DHS Enhanced Cybersecurity Services (ECS) • Industrial Control Systems Cyber Emergency Response Team (ICS-CERT)
2	Cyber Threat Detection and Recognition	<ul style="list-style-type: none"> - Some Manual processes in place for generating alerts. 	<ul style="list-style-type: none"> - Hybrid alerting – Basic automatic and some manual processes in place. 	<ul style="list-style-type: none"> - Some Automated detection and alerting - Some Automated integrations from servers to endpoints. - Automated malicious IP address blocking. 	<ul style="list-style-type: none"> • US-CERT Alerts • DHS Cyber Information Sharing and Collaboration Program (CISCP) • DHS Enhanced Cybersecurity Services (ECS) • Multi-State Information Sharing & Analysis Center
3	Internal Cyber Threat Sharing	<ul style="list-style-type: none"> - Generic policies and procedures for sharing of threat data to internal sources. - Limited sharing from InfoSec to IT teams. 	<ul style="list-style-type: none"> - Hybrid alerting – automatic and manual processes for sharing data to the work force. 	<ul style="list-style-type: none"> - Mostly following fully-automated processes for sharing threat data to the workforce. - Mostly integrated communications between IT and InfoSec teams. 	<ul style="list-style-type: none"> • National Preparedness Course Catalog <ul style="list-style-type: none"> ○ AWR-177-W Information Risk Management ○ AWR-353-W Using the Community Cyber Security Maturity Model (CCSMM) to Develop a Cyber Security Program
4	Membership in Cyber Sharing Networks	<ul style="list-style-type: none"> - Free tier membership with an ISAC/ISAO. 	<ul style="list-style-type: none"> - Paid membership with ISAC/ISAO - Limited technical connections with the ISAC/ISAO. 	<ul style="list-style-type: none"> - Fully automated connections with the ISAO. - The workforce is active in the ISAC/ISAO. 	<ul style="list-style-type: none"> • ISAO Standards Org - Information Sharing Groups • DHS Cyber Information Sharing and Collaboration Program (CISCP)
5	Intake Information Shared by Cyber Sharing Network	<ul style="list-style-type: none"> - Some automated processes and connections. 	<ul style="list-style-type: none"> - Most connections are integrated with an ISAO or business partners. 	<ul style="list-style-type: none"> - All automated sharing activities are focused on customizing alerts and maintaining connections. 	<ul style="list-style-type: none"> • ISAO Standards Organization: <i>ISAO 300-1 Introduction to Information Sharing</i>, Section 3.2 Applying Shared Information • ISAO Standards Organization: <i>ISAO 300-1 Introduction to Information Sharing</i>, Figure 3. Applying Information to Cybersecurity Risks
