

**State of Indiana
Department of Natural Resources**

DNR 30-DAY PUBLIC NOTICE

The Department of Natural Resources serves the DNR 30-Day Public Notice in order to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3.

The DNR 30-Day Public Notice is published weekly to serve notice of the latest permit applications received at the DNR, Division of Water. This Notice can be viewed on the web at <http://www.in.gov/dnr/water/> and can be provided by email upon written request. To receive the DNR 30-Day Public Notice as a weekly email attachment, email your full name and a valid email address to DNRPublicNoticeRecipient@dnr.IN.gov.

The permit applications and supporting documentation is available for public viewing on-line at <https://downunity.dnr.in.gov/#>. For questions concerning a permit application, contact the Division of Water, Technical Services Section, at (317) 232-4160 or toll free at 1-877-928-3755 and select 1 during the recorded menu narrative.

Petition for Public Hearing

A pre-action public hearing on an application may be requested by filing a written petition. For a petition to be considered valid it must:

1. contain the typed or legibly printed name and complete mailing address of each petitioner;
2. be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. affirm that each signatory to the petition satisfies the requirements of item 2; and
4. identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted. To request a pre-action public hearing, send the petition by email to water_inquiry@dnr.in.gov or by mail to:

IDNR, Division of Water
Technical Services Section
402 West Washington Street, Room W264
Indianapolis, Indiana 46204-2641

Notification of Department Action

A person may request that the Department notify them when a Department Action is issued. To be notified of a Department Action, send a request that includes the permit application number or the applicant name, project description and county to email address water_inquiry@dnr.in.gov or by mail to the address above.

Permit Application Numbers with a prefix of:

FW are being reviewed under the Flood Control Act, IC 14-28-1 and the Flood Plain Management Rule, 312 IAC 10

PL are being reviewed under the Lake Preservation Act, IC 14-26-2 and the Public Freshwater Lake Rule, 312 IAC 11

DR are being reviewed under the Lowering of the Ten Acre Lake Act, IC 14-26-5

NW are being reviewed under the Navigable Waterways Act, IC 14-29-1

LM are being reviewed under the Navigable Waterways Act, IC 14-29-1 related to Lake Michigan

SG are being reviewed under the Sand and Gravel Permits Act, IC 14-29-3

AC are being reviewed under the Construction of Channels Act, IC14-29-4

DNR 30-DAY PUBLIC NOTICE

Date: 4/26/2023

Application #: FW-32080-0

Received Date: 3/8/2023

Waterbody: Honey Creek

County: White, White

Applicant: Honey Creek Energy LLC, Kelly Inns, 200 South Wacker Drive, Ste 1675, , , East Chicago, IN

Project Description: Honey Creek Energy will construct a solar facility including: solar arrays, inverters, an Operation and Maintenance Building, parking areas, an electric transmission substation, a switchyard, fences, access roads, and collection cable. Solar arrays, access roads, inverters, fences, and collection cables will be located in the floodway of Honey Creek.

Project Location: Beginning at the confluence with Fraser Ditch and extending approximately 3600 feet downstream near Reynolds

Application #: FW-32081-0

Received Date: 3/8/2023

Waterbody: Paul Trier Ditch

County: Allen

Applicant: Roosevelt Land Development Group LLC, Jerry Starks, 3472 Stellhorn Road, , , Fort Wayne, IN, 46815

Project Description: A new residential development, Roosevelt Reserves, will be constructed west of Paul Trier Ditch and north of East Tillman Road to provide additional housing. Floodway construction activities associated with this development include only the installation of a sanitary sewer main extension. The existing sanitary line is an existing 21" diameter sanitary sewer located approximately 25' west of the top of bank of the Ditch. The new 8" diameter PVC sanitary sewer pipe will run from the new residential development to the existing sanitary main and will include a new sanitary manhole (Structure 801). The line will be constructed using the open cut method. After proposed construction activities have been completed the disturbed area will be restored back to its existing condition, resulting in no permanent grade alteration.

Project Location: Beginning approximately 850' downstream from the East Tillman Road stream crossing along the west overbank and extending approximately 350' west to the edge of the floodway at Fort Wayne

Application #: FW-32089-0

Received Date: 3/16/2023

Waterbody: White River

County: Randolph

Applicant: William J Decker, 829 Forest Drive, Anderson, IN, 46011

Project Description: An existing wooden deck will be dismantled and rebuilt to construct a new, 12' by 7' deck. A new 12' by 10' shed will be constructed and a three strand tension fence will be constructed. In addition, two areas will be filled with gravel. The first area is approximately 15' by 30' and will be filled with gravel to a maximum of 5" above grade. The second area is approximately 30' in diameter, and will be filled with gravel to a maximum of 5" above grade.

Project Location: Approximately 100' northwest of the intersection of West Maxville Road and North 700 West at Farmland

Application #: FW-32090-0

Waterbody: Wabash River

Applicant: Town of Merom, John Gettinger, 1997 South 3rd Street, Merom, IN, 47861

Received Date: 3/16/2023

County: Sullivan

Project Description: Approximately 3,800' of a new compacted aggregate trail will be constructed. The trail will be 8' wide and it will be constructed at-grade. In addition, a parking lot will be regraded at-grade.

Project Location: Approximately 850' west of the intersection of Poplar Street and 2nd Street at Merom

Application #: FW-32092-0

Waterbody: Little Duck Creek

Applicant: Madison County Highway Department, Jessica Bastin, 2830 West Eight Street, , , Anderson, IN, 46011

Received Date: 3/17/2023

County: Madison

Project Description: The existing arch bridge carrying South M Street over Little Duck Creek will be replaced with a new structure on essentially the same alignment. The new structure will be a single span arch bridge with span lengths of 28'. The structure will have an out-to-out length of 30.5' and a clear roadway width of 19'. The bridge will not be skewed to alignment of the streamflow. The new approach roads will be elevated a maximum of 0.5' above the existing approaches, behind existing guardrail. The existing structure will be completely removed.

Project Location: Approximately 75' east of the intersection of South M Street and South 22nd Street at Elwood

Application #: FW-32093-0

Waterbody: West Fork White River

Applicant: City of Indianapolis, Andre Denman, 1200 Madison Avenue, , , Indianapolis, IN, 46225

Received Date: 3/17/2023

County: Marion

Project Description: An existing playground and swing equipment will be removed and replaced with new equipment and poured-in-place rubber surfacing. A portion of the existing parking lot will be modified to provide additional play area and an accessible parking space will be added at the

playground entry. Concrete walks will be installed connecting the existing and improved site elements.

Project Location: East of the intersection of West 19th Street and Lafayette Road at Indianapolis

Application #: FW-32094-0

Waterbody: Unnamed Tributary St. Joseph River

Applicant: Purdue University Fort Wayne, Greg Justice, 2101 East Coliseum Boulevard, , , Fort Wayne, IN, 46805

Received Date: 3/17/2023

County: Allen

Project Description: The project proposes streambank stabilization activities along 110 linear feet of an Unnamed Tributary to the St. Joseph River. The activities begin at the existing culvert and continue 110 linear feet northwest along the south bank. Stabilization activities will include grading the side slopes to achieve a 3:1 slope. Where the side slopes are too steep, the side slopes will be graded to a 1.5:1 and reinforced with an Envirolok Bag wall planted with native species. The toe of slope will be armored with native glacial stone and riprap as well as pre-vegetated coir logs. The remaining area of the graded streambanks will be seeded with erosional control seed mix native to Allen County.

Project Location: Beginning approximately 950' downstream from the Broyles Boulevard stream crossing and extending downstream approximately 110 linear feet along the south/west bank at Fort Wayne

Application #: FW-32098-0

Waterbody: West Fork White River

Applicant: City of Muncie, Adam Leach, 5790 West Kilgore Avenue, , , Muncie, IN, 47304

Received Date: 3/20/2023

County: Delaware

Project Description: A new 9,300 square foot skate park will be constructed along the north bank of the West Fork White River. The project will include site excavation and grading, site drainage, installation of concrete walks, steps, and ramps, placement of a pre-engineered shade structure and incidental landscape repair and restoration operations.

Project Location: At Westside Park approximately 350' upstream of Tillotson Avenue and will extend upstream approximately 265' at Muncie

Application #: FW-32099-0

Waterbody: West Fork White River

Applicant: Muncie Sanitary District, John Barlow, 300 North High Street, , Muncie, IN, 47305

Received Date: 3/20/2023

County: Delaware

Project Description: Approximately 1100' of an earthen levee will be constructed as part of the Muncie South Levee System. The top of the levee will be 22' wide and topped with asphalt to be used as a pedestrian trail. The top of the levee will be at elevation 953.00' NAVD 88. The levee will have 3:1 side slopes. The alignment of the south levee tie-back will be located west of the existing levee and will tie into continuous natural high ground south of State Road 32. The elevation of State Road 32 between Jackson Street and Main Street will be raised to the levee crest elevation. The Cardinal Greenway trail will be relocated to the south and will tie-back into the levee crest. Also, a new 12' wide asphalt access drive will be constructed at grade for the existing Philips Outdoor Center.
Project Location: Beginning approximately 790' upstream of the north Norfolk Southern Railroad Crossing and extending approximately 1,110' upstream to the downstream side of southern Norfolk Southern Railroad crossing at Muncie

Application #: FW-32100-0

Waterbody: Unnamed Tributary Offield Creek

Applicant: Montgomery County, Tom Klein, 1580 Constitution Row, , Crawfordsville, IN, 47933

Received Date: 3/20/2023

County: Montgomery

Project Description: A portion of the Purple Heart Parkway extension to provide a connector road from US 231 to Ladoga Road will be in the floodway of an Unnamed Tributary Offield Creek. The road will be 29' wide with two 12' travel lanes and an 8' multi-use path on the north side of the road. The road will have 2.58' curb and gutters and 6" underdrains. The area will be reseeded upon completion of the project. A utility easement will be placed on the south side of the alignment. Mitigation will be done for the approximate 0.168 acres of tree removal.
Project Location: Beginning at the US 231 and Purple Heart Parkway intersection and continuing approximately 6600' east to Ladoga Road at Crawfordsville

Application #: FW-32105-0

Waterbody: West Fork White River

Applicant: Edward Rose and Sons, Brade Schrage , 11611 North Meridian Street, Suite 800, , Carmel, IN, 46032

Received Date: 3/21/2023

County: Marion

Project Description: As part of the redevelopment of a commercial facility, existing curbs and pavement will be demolished and restored to match the grade of the surrounding area. This area will be stabilized with vegetation upon completion.
Project Location: Approximately 700' north and 400' east of the intersection of East 82nd Street and Dean Road at Indianapolis

Application #: FW-32108-0

Waterbody: Buffalo Creek

Applicant: Indiana Department of Transportation, Jennifer Curry, 100 North Senate Avenue, Room N758-ES, , Indianapolis, IN, 46204

Received Date: 3/23/2023

County: Marion

Project Description: The three-span concrete slab bridge carrying State Road 135 over Buffalo Creek will be rehabilitated. The existing bridge consists of two 12' wide travel lanes in each direction, a 16' wide central median, and a 5' wide concrete curb on each side of the bridge. The bridge is approximately 118' in length, has an out-to-out width of approximately 80', and a low structure elevation of 723.18'. The rehabilitated bridge will consist of the same dimensions as the existing bridge. Riprap will be placed along piers 2 and 3. Each pier will have approximately 100' by 14' by 3' of riprap installed. Temporary impacts include the use of a cofferdam measuring approximately 4' by 23' by 1.5', along with pumparound equipment. No tree clearing or vegetation removal will take place. Disturbed areas will be revegetated upon completion. Des# 2002068.
Project Location: At the crossing of State Road 135 over Buffalo Creek at Indianapolis

Application #: FW-32109-0

Received Date: 3/23/2023

Waterbody: North Fork Dry Branch

County: Hancock

Applicant: Lennar Homes of Indiana, Inc, , 11555 North Meridian Street, Suite 400, , , Carmel, IN, 46032

Project Description: A new 86' long corrugated metal pipe arch culvert will be placed in North Fork Dry Branch. The culvert will have a 103" span by 71" rise. The culvert will be sumped 1.25' and will include a wildlife crossing. Riprap will be placed around the outlets and will be flush with existing grade to provide bank and scour protection. Also, an existing 72" diameter culvert along County Road North 500 West will be extended 47' west. A temporary cofferdam and dewatering equipment will be needed to complete the project.

Project Location: Approximately 1235' north an 1515' west of the West County Road 900 North and North County Road 500 West intersection near McCordsville

Application #: FW-32139-0

Received Date: 4/12/2023

Waterbody: Unnamed Tributary Richland Creek

County: Monroe

Applicant: John Daniels, 9110 West Howard Road, , , Bloomington, IN, 47404

Project Description: An existing private bridge will be replaced with a new culvert crossing with guardrails on each side. The new culvert will be a 19.5' by 6' by 26' long aluminum box culvert. The culvert will have an open bottom and will be set in aluminum headwalls with upstream and downstream elevations of 700.53', NGVD and 700.27', NGVD respectively. Minor channel shaping will occur both downstream and upstream of the new culvert to improve the flow transition at the crossing. The shaping will be confined to the construction right-of- way and will be stabilized with an erosion control blanket. The roadway will be elevated approximately 1' above the existing road elevations. The crown of the roadway over the new culvert will be at 708, NGVD.

Project Location: At 9110 West Howard Road at Bloomington

Application #: FW-32150-0

Received Date: 3/8/2023

Waterbody: Diener Ditch

County: White

Applicant: Honey Creek Energy LLC, Kelly Inns, 200 South Wacker Drive, Ste 1675, , , East Chicago, IN

Project Description: Honey Creek Energy will construct a solar facility including: solar arrays, inverters, an Operation and Maintenance Building, parking areas, an electric transmission substation, a switchyard, fences, access roads, and collection cable. Solar arrays, access roads, inverters, fences, and collection cables will be located in the floodway of Diener Ditch.

Project Location: Beginning at the confluence with Fraser Ditch and extending approximately 1800 feet upstream near Reynolds

Application #: FW-32164-0

Received Date: 3/8/2023

Waterbody: Beller Mccollum Ditch

County: White

Applicant: Honey Creek Energy LLC, Kelly Inns, 200 South Wacker Drive, Ste 1675, , , East Chicago, IN

Project Description: Honey Creek Energy will construct a solar facility including: solar arrays, inverters, an Operation and Maintenance Building, parking areas, an electric transmission substation, a switchyard, fences, access roads, and collection cable. Solar arrays, access roads, inverters, fences, and collection cables will be located in the floodway of Beller McCollum Ditch.

Project Location: Beginning approximately 4800 feet upstream of the confluence with Honey Creek and extending approximately 1500 feet upstream near Reynolds

Application #: PL-24805-0

Received Date: 4/11/2023

Waterbody: Big Barbee Lake

County: Kosciusko

Applicant: Barbee Lawn Care, Cody A Hess, 257 EMS B61 Lane, , , Warsaw, IN, 46582

Project Description: A new seawall will be constructed along the frontage of the applicant on little Barbee Lake to deter shoreline erosion. The wall will be composed of 6"-12" diameter glacier stone and will be approximately 110' long. Its lakeward face will be at the lake's legal shoreline.

Project Location: 257 EMS B61 Lane near Warsaw
