

## **DNR 30-DAY PUBLIC NOTICE**

The Department of Natural Resources serves the DNR 30-Day Public Notice in order to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3.

The DNR 30-Day Public Notice is published weekly to serve notice of the latest permit applications received at the DNR, Division of Water. This Notice can be viewed on the web at <http://www.in.gov/dnr/water/> and can be provided by email upon written request. To receive the DNR 30-Day Public Notice as a weekly email attachment, email your full name and a valid email address to [DNRPublicNoticeRecipient@dnr.IN.gov](mailto:DNRPublicNoticeRecipient@dnr.IN.gov).

The permit applications and supporting documentation is available for public viewing on-line at <https://downunity.dnr.in.gov/#>. For questions concerning a permit application, contact the Division of Water, Technical Services Section, at (317) 232-4160 or toll free at 1-877-928-3755 and select 1 during the recorded menu narrative.

---

### Petition for Public Hearing

A pre-action public hearing on an application may be requested by filing a written petition. For a petition to be considered valid it must:

1. contain the typed or legibly printed name and complete mailing address of each petitioner;
2. be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. affirm that each signatory to the petition satisfies the requirements of item 2; and
4. identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted. To request a pre-action public hearing, send the petition by email to [water\\_inquiry@dnr.in.gov](mailto:water_inquiry@dnr.in.gov) or by mail to:

IDNR, Division of Water  
Technical Services Section  
402 West Washington Street, Room W264  
Indianapolis, Indiana 46204-2641

### Notification of Department Action

A person may request that the Department notify them when a Department Action is issued. To be notified of a Department Action, send a request that includes the permit application number or the applicant name, project description and county to email address [water\\_inquiry@dnr.in.gov](mailto:water_inquiry@dnr.in.gov) or by mail to the address above.

Permit Application Numbers with a prefix of:

FW are being reviewed under the Flood Control Act, IC 14-28-1 and the Flood Plain Management Rule, 312 IAC 10

PL are being reviewed under the Lake Preservation Act, IC 14-26-2 and the Public Freshwater Lake Rule, 312 IAC 11

DR are being reviewed under the Lowering of the Ten Acre Lake Act, IC 14-26-5

NW are being reviewed under the Navigable Waterways Act, IC 14-29-1

LM are being reviewed under the Navigable Waterways Act, IC 14-29-1 related to Lake Michigan

SG are being reviewed under the Sand and Gravel Permits Act, IC 14-29-3

AC are being reviewed under the Construction of Channels Act, IC14-29-4

**DNR 30-DAY PUBLIC NOTICE**

Date: 7/24/2024

**Application #: FW-32725-0**

Received Date: 4/29/2024

Waterbody: White River

County: Randolph

Applicant: Ronald Stauffer, 46 Stonebridge Drive, Winchester, IN, 47394

Project Description: Approximately 774' of White River will be diverted.

Project Location: 1556 East 100 North at Winchester

**Application #: FW-32732-0**

Received Date: 5/1/2024

Waterbody: White River

County: Randolph

Applicant: Randolph Central School Corporation, , 407 East Fourth Street, Winchester, IN, 47394

Project Description: A 200' long by 20' wide portion of the White River's southern bank will be stabilized with coir logs. In addition, a cattle fence will extend approximately 850' along the southern bank.

Project Location: Approximately 400' south of the intersection of East Union City Pike and U.S. Highway 27 at Winchester

**Application #: FW-32739-0**

Received Date: 5/3/2024

Waterbody: East Fork Salt Creek

County: Porter

Applicant: Porter County Highway Department, Jim Polarek, 1955 IN 2, , Valparaiso, IN, 46383

Project Description: A drainage swale, grading, and riprap drainage outlet will be installed in the floodway of Salt Creek as part of a larger reconstruction project. The drainage swale will be approximately 641' long. A silt fence will be installed temporarily and all disturbed areas will be reseeded.

Project Location: Approximately 400' upstream of the State Road 2 stream crossing over Salt Creek near Valparaiso

**Application #: FW-32760-0**

Received Date: 5/24/2024

Waterbody: Jackson Creek

County: Monroe

Applicant: Mark Rothrock, 5621 South Old Street Road 37, , Bloomington, IN, 47401

Project Description: A temporary wooden bridge crossing Jackson Creek will be installed and approximately 19 Walnut Trees will be removed and the stumps will remain in place.

Project Location: 5621 South Old State Road 37 at Bloomington

**Application #: FW-32776-0**

Received Date: 6/5/2024

Waterbody: Beanblossom Creek

County: Monroe

Applicant: Sycamore Land Trust, , PO Box 7801, Bloomington, IN, 47407

Project Description: Two wetlands will be constructed totaling in approximately 5 acres. The wetlands will be dug to a maximum depth of 30". Spoil will be deposited in a low berm adjacent to the wetlands. An approximately 1,200' trench will cut off the existing drain tile adjacent to the wetlands.

Project Location: Field north of Cedar Ford Covered bridge. near Bloomington

**Application #: FW-32783-0**

Waterbody: White Creek

Applicant: Indiana Department of Transportation, Jacob Burskey, 100 North Senate Avenue, Room N758-ES, , Indianapolis, IN, 46204

Received Date: 6/12/2024

County: Bartholomew

Project Description: The existing three span concrete bridge carrying State Road 58 over White Creek will be removed and replaced (Existing No. 058-03-05582B) (Proposed No. 058-03-10816) (Des. No. 2100568). The new structure will be approximately 50 foot downstream of the existing structure and will be realigned to the natural stream. The existing 45' wide roadway approach will be replaced with an approximately 30' wide paved roadway approach. Permanent impacts total approximately 3.875 acres for the use of riprap that will be used as scour protection. Approximately 0.051 acres will impact a wetland. The temporary impacts total approximately 0.107 acres for the use of temporary cofferdams, erosion control measures, temporary access points, and fill. A wildlife crossing has been proposed. Approximately 0.0996 acres of tree clearing has been proposed. This project is federally funded.

Project Location: The bridge carrying State Road 58 over White Creek near Columbus

**Application #: FW-32801-0**

Waterbody: Big Slough

Applicant: Nugent Sand & Gravel, , 5205 Indianapolis Road, , Columbus, IN, 47203

Received Date: 6/24/2024

County: Bartholomew

Project Description: An approximately 20' long by 8' wide three sided aluminum box culvert with approximately 4' rise has been proposed. Impacts total approximately 0.01 acres for the use of riprap. There will be a 1' wide wildlife crossing. No tree clearing has been proposed.

Project Location: Project is located approximately 0.38 miles northeast of intersection County Road 400 North and US Highway 31 near Columbus

**Application #: PL-25011-0**

Waterbody: Koontz Lake

Applicant: Koontz Lake Conservancy District, , PO Box 278, Walkerton, IN, 46574

Received Date: 5/15/2024

County: Marshall, Starke

Project Description: Two bio-augmentation systems will be placed in Koontz Lake. The systems will consist of a tank, a biological reservoir, and a pump that pumps lake water into the tank. Biologicals are added to the tank and allowed to grow before the pump disperses the brewed bio-augmentation into the lake via a weighted rubber hose laid on the lake bottom.

Project Location: 4060 Leslie Street near Koontz Lake

**Application #: PL-25017-0**

Waterbody: Lake Maxinkuckee

Applicant: Rachael Olsen-Marszewski, 3219 South Morgan Street, , East Chicago, IN

Received Date: 5/23/2024

County: Marshall

Project Description: An existing concrete seawall will be refaced across with vinyl along 35' of the shoreline. The refacing will consist of 10' vinyl sheet piling which will be driven and anchored to deadman anchors 12' into the property. The refacing will have a maximum thickness of 6 inches and will have a 5' exposure. The area behind the wall will be backfilled with clean peastone.

Project Location: 39 Venetian Village Road near Culver

**Application #: PL-25020-0**

Waterbody: Cedar Lake

Applicant: Kevin Toth, PO Box 1, Cedar Lake, IN, 46303

Received Date: 5/29/2024

County: Lake

Project Description: Approximately 150 fish attractors will be placed in Cedar Lake. The fish attractors will consist of trees.

Project Location: Cedar Lake near Cedar Lake

**Application #: PL-25021-0**

Received Date: 5/31/2024

Waterbody: Ball Lake

County: Steuben

Applicant: Michael McKowen, 600 Lane 201 Ball Lake, , Hamilton, IN, 46742

Project Description: An existing glacial stone seawall will be replaced with a new concrete seawall will be constructed. The seawall will be approximately 60' long by 2' wide and will be approximately 3' high.

Project Location: 600 Lane 201 Ball Lake near Hamilton

**Application #: PL-25022-0**

Received Date: 6/3/2024

Waterbody: Hudson Lake

County: LaPorte

Applicant: Hudson Lake Conservation Association, , 7321 East Hudson Pointe Lane, New Carlisle, IN, 46552

Project Description: To increase boating and lake access, two areas will be hydraulically dredged. One site, is a channel from the Public Assess Site to the main body of the lake, measuring approximately 1550' by 25' will be dredged to a maximum depth of 5' by removing approximately 1.5' of accumulated sediment and debris. The other site, a channel connecting the west and central portions of the lake, measuring approximately 2000' by 30' will be dredging to a maximum depth of 5.5' by removing approximately 1.5' of accumulated sediment and debris.

Project Location: Site 1 is the boat launch channel along the west side of the lake and Site 4 is the the central navigation channel along the south side of the lake Hudson Lake

**Application #: PL-25027-0**

Received Date: 6/17/2024

Waterbody: Jimmerson Lake

County: Steuben

Applicant: JB Worx LLC, Jacob D Bryant, 5490 West Orland Road, , Angola, IN, 46703

Project Description: Dredging will take place near both north and south dock locations to remove accumulated sediments along 60' of lake frontage. Service will remain 5' away from the shoreline and go no further than 25' away from the shoreline. The depth from the beginning of the proposed dredge site to the end of the dock ranges from 10 inches to 28 inches, respectively.

These areas will be dredged to a maximum depth of 6' below legal lake level with a maximum slope of 3:1 away from the shoreline. Dredging will be completed in a mechanical fashion. An excavator will sit on barges and place spoils in totes on the barges. The dredge sediments will be disposed at an upland area to dewater with no return to Jimmerson Lake or the adjacent wetlands. Dredge materials will be contained and transported to Reinhold's Gravel Pit in a vactruck to alleviate spillage on roadways.

Project Location: 300 Lane 150 Jimmerson Lake near Fremont

**Application #: PL-25031-0**

Received Date: 6/25/2024

Waterbody: Jimmerson Lake

County: Steuben

Applicant: JB Worx, Jacob D Bryant, 5490 West Orland Road, , Angola, IN, 46703

Project Description: Dredging will take place near both north and south dock locations to remove accumulated sediments along 60' of lake frontage. Dredging will remain approximately 5' away from the shoreline and go no further than 30' away from the shoreline. The depth from the beginning of the proposed dredge site to the end of the dock ranges from 6 inches to 20 inches, respectively. Dredging will be completed in a mechanical fashion. An excavator will sit on barges and place spoils in totes on the barges. The dredge sediments will be disposed at farmland owned by Higbee Excavating to dewater with no return to Jimmerson Lake or the adjacent wetlands. Th dredge materials will be contained and transported in a vactruck to alleviate spillage on roadways.

Project Location: 735 Lane 275 Jimmerson Lake near Angola

**Application #: PL-25037-0**

Waterbody: West Otter Lake

Applicant: JB Worx LLC, Jacob D Bryant, 5490 West Orland Road, , , Angola, IN, 46703

Received Date: 6/28/2024

County: Steuben

Project Description: Dredging will take place inside one of the channels that borders the West Otter Lake Campground across approximately 120' of lake frontage and will extend out approximately 35' on West Otter Lake. A 5' setback will be maintained around the whole perimeter of the channel. The current depth of the proposed dredge site ranges from 12" to 5'. These areas will be dredged to a maximum depth of 8' below legal lake level with a maximum slope of 3:1 away from the shoreline.

Dredging will be completed in a mechanical fashion. An excavator will sit on barges and place spoils in totes on the barges. The dredge sediments will be disposed at farmland owned by Higbee Excavating to dewater with no return to West Otter Lake or the adjacent wetlands. Dredge materials will be contained and transported in a vactruck to alleviate spillage on roadways.

Project Location: 160 Lane 110 West Otter Lake near Angola

**Application #: PL-25048-0**

Waterbody: Lake George

Applicant: Lisa and Richard Flowers, 3160 County Road J, Deshler, OH, 43516

Received Date: 7/10/2024

County: Steuben

Project Description: An existing 40' long seawall will be recaped and refaced to match the existing concrete seawalls on both sides of the property.

Project Location: 135 Lane 301C Barton Lake near Fremont
