

**ILEARN 3-8  
Reported Lexile & Quantile Measures**

The following tables reflect the Lexile and Quantile measures at each proficiency level per grade level. The “Reported Quantile” or “Reported Lexile” reflect the measure included on ILEARN reports for any student achieving the established threshold cut score. “Lower Range” and “Upper Range” values illustrate the range of obtainable measures within the given proficiency level. [IDOE’s website](#) contains more information about how Lexile and Quantile measures may be used to support students. Please [contact our office](#) with any questions.
