**Presented by Safer Schools Together**

School City of Mishawaka and the Indiana School Safety Specialist Academy (ISSSA) will provide free training over digital threat assessments. Digital threat assessment teaches participants to establish a digital behavioral baseline through a safety/threat assessment lens. By engaging with popular social media applications, you will learn how to find and document worrisome digital media content originating from your community. This training solidifies your understanding of how to effectively use DTA as critical part of any modern-day threat assessment.
