

**I-65/I-70 North Split Project
Proposers Questions to RFQ
Q&A Matrix #2
Issued on April 5, 2019**

INDOT No.	Doc/Sec/Page	Comments/Questions	Response/Resolution
1.	RFQ Part B, Section 2.7	In terms of transportation projects, and without further definition, confirm that it is acceptable to provide responses relating only to hard/civil infrastructure: runways, roads, bridges, railroads/trains, tunnels and not terminals or other structures?	Transportation projects is intended to pick up any project related to transportation/transportation facilities, so an airport terminal or an intermodal facility or station would be included. Buildings/structures unrelated to transportation (such as a courthouse or prison) would not be included.
2.	RFQ Part B, Section 2.7	Confirm that “under common ownership” in the definition of affiliate means under common ownership with the Proposer (not the parent)?	Correct.
3.	RFQ Part B, Section 2.7	Confirm that if the Proposer’s parent is part of a Joint Venture with someone other than the Proposer, and the parent is also named individually (as a guarantor) in a matter that that matter does not need to be disclosed (the definition of affiliate seems to indicate the only want to know about joint ventures and partnerships that include the Proposer)?	If Proposer’s parent is a Financially Responsible Party, they would be included within this question and joint ventures involving such entity would apply and disclosures would be required. See, however, revisions to <u>Part B, Section 2.7</u> of the RFQ in Addendum #2.
