OLD BUSINESS

Ms. Presnoples called the special meeting to order to discuss the allocation for Ivy Tech Community College and Vincennes University for journeymen/pre-apprenticeship programs and review program metrics going forward in order to show a return on investment for the programs. Ms. Presnoples thanked Mr. Collins for chairing the subcommittee that was charged with determining what metrics would be submitted by the programs in the future.

Mr. Collins reported on a draft form that was agreed upon by the parties that would show data including enrollment by trade, status and forecast for the following year. It was determined the programs would return in June 2015 with completed data.

Ms. Presnoples asked the board if anyone had any comments or questions or any changes they would like to see. It was noted that any questions on the data could be answered before the June meeting. Ms. Presnoples asked Mr. Evans what he thought about the form and Mr. Evans said we get the basic information from them already; they are just giving it in a different form. Mr. Prow asked who was responsible for these numbers at Ivy Tech and Vincennes and it was answered to be Teresa Hess at Ivy Tech and Dave Tucker at Vincennes University. Mr. Collins reminded the board this information is just a part of what they submit. There was some additional discussion.

Mr. Presnoples added she would like to add for June 15 report a box showing actual data for year to date so the board could see the projections compared to the actual. Ms. Presnoples asked if anyone has a problem adding a box to this. There was some discussion.

Mr. Prow made a motion to approve the funding to Ivy Tech and Vincennes University and Mr. Evans seconded. Motion was approved by the board.
