Dear Mr. Brown:

Re: IDEM Approval of Renewal of Coverage
#ING040030 under
NPDES General Permit-by Rule 327 IAC 15-7
DNR Permit Nos. S-0311, S-0351, S-0358
Triad Mining, LLC - Freelandville Mine
14521 E. S.R. 58
Edwardsport, IN - Knox County

On May 14, 2024, our office received your NPDES Notice of Intent (NOI) for the above-referenced facility, requesting to renew NPDES general permit coverage under 327 IAC 15-7, the NPDES general permit-by-rule for Facilities Engaged in Mining of Coal, Coal Processing, and Reclamation Activities. We are pleased to inform you that the submittal is sufficient to comply with the NOI requirements for 327 IAC 15-7 and that your facility will remain covered under this general permit.

In your most recent NOI, you have provided several updated locational coordinates and receiving stream information as compared to the information which was provided in previous NOI forms. These changes have been noted on the list of outfalls contained in Attachment 1. The effective date of the renewed NPDES general permit coverage is August 1, 2024. The new expiration date is July 31, 2029.

We have reviewed your request and have determined that the activities associated with it will not violate the antidegradation rules as set forth in 327 IAC 2-1.3. Our office has further determined that the request will not affect this facility's eligibility for coverage under the general permit rules outlined in 327 IAC 15-1 through 15-4 and 327 IAC 15-7, Facilities Engaged in Mining of Coal, Coal Processing, and Reclamation Activities. Therefore, your petition to renew and modify permit coverage as is described in your NOI has been approved in accordance with Indiana rules promulgated under 327 IAC 15-7 and 327 IAC 2-1.3. Coverage for the facility will include all outfalls listed on the first table of Attachment 1 to this correspondence.

The NPDES general permit identification number assigned to this facility is referenced above. You are required to follow all terms and conditions of 327 IAC 15-7.

To receive authorization to discharge beyond the date of expiration, you are required to submit a renewal NOI to IDEM no later than ninety (90) days prior to the expiration date.

One condition of your permit requires periodic reporting of several effluent parameters. You are required to submit both federal discharge monitoring reports (DMRs) and state Monthly Monitoring Reports (MMRs) on a routine basis. The MMR form can be found on IDEM's web site at <https://www.in.gov/idem/cleanwater/wastewater-compliance/wastewater-reporting-forms-notice-and-instructions/>. All NPDES permit holders are required to submit their monitoring data to IDEM using NetDMR. 327 IAC 15-7 is available at <https://www.in.gov/idem/legal/environmental-laws-and-rules/>.

Please note that IDEM is required to serve notice of its decision to accept your facility's renewal of coverage under the general permit-by-rule in accordance with the requirements of 327 IAC 5-3-14. It should also be noted that any appeal must be filed under procedures outlined in IC 13-15-6, IC 4-21.5, and the enclosed Public Notice. The appeal must be initiated by filing a petition for administrative review with the Office of Administrative Law Proceedings (OALP) within fifteen (15) days of the emailing of an electronic copy of this letter or within eighteen (18) days of the mailing of this letter. Addresses are as follows:

Director
Office of Administrative Law Proceedings

100 North Senate Avenue
Indianapolis, IN 46204

Commissioner
Indiana Department of Environmental Management
Indiana Government Center North
Room 1301
100 North Senate Avenue

The OALP will provide parties who request review of this acceptance for coverage with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the OALP.
