Preliminary Findings Regarding a New Source Review and
Source Specific Operating Agreement (SSOA)

for Irving Materials – New Albany Sand & Gravel in Floyd County

SSOA No.: S043-48322-00090

The Indiana Department of Environmental Management (IDEM) has received an application from Irving Materials – New Albany Sand & Gravel, located at 6501 IN-111, New Albany, IN 47150, for a new source construction and SSOA. If approved by IDEM's Office of Air Quality (OAQ), this proposed permit would allow Irving Materials – New Albany Sand & Gravel to construct and operate a new stationary sand and gravel plant.

The applicant intends to construct and operate new equipment that will emit air pollutants. The potential to emit regulated pollutants will be limited pursuant to the conditions contained in the SSOA. IDEM has reviewed this application, and has developed preliminary findings, consisting of a draft permit and supporting documents, that would allow the applicant to make this change.

IDEM is aware that the equipment at this sand and gravel operation have been constructed and operated prior to receipt of the proper permit. IDEM is reviewing this matter and will take appropriate action. This draft permit contains provisions to bring unpermitted equipment into compliance with construction and operation permit rules.
