* "Counties Served" refers to IDA program participants served by each agency. All agencies may accept contributions to the IDA Tax Credit Program from any qualifying donor in Indiana or with Indiana state tax liability, regardless of the donor's county of residence.

** Many agencies have multiple office locations, some in neighboring counties.

Some agencies may also serve participants residing in additional Indiana counties, either virtually or if they are able to travel for occasional in-person meetings. Additional agencies also serve IDA clients but do not participate in IDA Tax Credit fundraising. For a complete list of IDA Administrators, visit the IDA page of IHCD's website.
