Commercial and Office Space: IHCDA Rental Housing financing resources cannot be used to finance commercial space within a Development. Income generated and expenses incurred from this space, though, must be factored into IHCDA's underwriting for the Development as a whole when reviewing the application. If the Development involves the development of commercial space, the applicant will need to provide separate annual operating expense information and a separate 15-year proforma for the commercial space. Be sure to label which forms are for the housing and which ones are for the commercial space. Also separate out all development costs associated with the commercial space on line M of the Development Costs chart.

 a. If Multi-family Tax Exempt Bonds are requested, list percent such bonds represent of the aggregate basis of the building and land of the development: If this percentage is 50% or more , a formal allocation of credits from IHCDA is not necessary (although the development must satisfy and comply with all requirements for an allocation under this Allocation
Plan and Section 42 of the Code. The Issuer of the bonds must determine the maximum amount of credits available to the development which, just as for developments which do need allocation, is limited to the amount of credits necessary to make the development financially feasible). AT THE TIME OF SUBMITTING THIS APPLICATION, YOU MUST PROVIDE IHCDA WITH AN OPINION OF COUNSEL, SATISFACTORY TO IHCDA, THAT YOU ARE NOT REQUIRED TO OBTAIN AN ALLOCATION OF TAX CREDITS FROM IHCDA AND THAT THE DEVELOPMENT MEETS THE REQUIREMENTS OF THE ALLOCATION PLAN AND CODE.

^{*} Commercial costs are defined as those costs that are not eligible basis and are attributed to non-residential areas of the Development (e.g. retail area of mixed-use development).

Note: The actual amount of credit for the Development is determined by IHCDA. If the Development is eligible for Historic Tax Credit, include a complete breakdown of the determination of eligible basis for the Historic Credit with the Application. If the Development's basis has been adjusted because it is in a high cost area or qualified census tract, the actual deduction for the Historic Cost items must be adjusted by multiplying the amount by 130%. This does not apply to Historic Tax Credits.

2. Determination of Reservation Amount Needed

The following calculation of the amount of credits needed is substantially the same as the calculation which will be made by IHCDA to determine, as required by the IRS, the maximum amount of credits which may be reserved for the Development. However, IHCDA at all times retains the right to substitute such information and assumptions as are determined by IHCDA to be reasonable for the information and assumptions provided herein as to costs (including development fees, profits, etc.) sources of funding, expected equity, ect. Accordingly, if the development is selected by IHCDA for a reservation of credits, the amount of such reservation may differ significantly from the amount that is computed below.
