

# Living Green Cover Crop Years 2014 - 2023

Living Green Covers (LGC) include cover crops and small grains such as wheat.

- Data is not collected in Marion County
- Transects for crop years 2014-2019 were conducted in fall after harvest.
- Transects for crop years 2020-2023 were conducted in the late winter to early spring of the following year
- During the 2019 conservation transect, not all counties conducted a transect due to COVID-19, state wide estimates were done using available data.

## Cover Crop Implementation

Acres	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
