OVERVIEW

Basic Purpose and Background

This rulemaking amends rules at [170 IAC 1-6](#), the IURC's rules governing the simplified filing process for noncontroversial changes in a utility's tariff, which is the schedule of rates and charges a regulated utility is authorized to charge. This shortened filing process is referred to as a 30 day filing.

The proposed rule clarifies and simplifies certain portions of the noncontroversial administrative filing process by requiring that an objection must be a valid objection; allowing a decrease in a utility rate to be an allowable noncontroversial filing, including rules for intrastate access tariffs already in effect from a previous IURC order; and clarifying rules regarding objections.
