APPLICATION TO DEFER THE REQUIRED PROPERTY TRANSFER INSPECTIONS AND TESTS UNTIL AFTER THE PROPERTY IS PURCHASED

Background:

St. Joseph County requires an inspection of the septic system if the property is within the St. Joseph Aquifer System and has not transferred or had a new septic system installed within 15 years. In addition, St. Joseph County requires testing of the drinking water quality any time a property is sold. These inspections and tests are needed to protect public health and to ensure the condition of the property is properly disclosed to the buyer. **These inspections and tests reduce the likelihood that a buyer will encounter very large and unexpected costs soon after they purchase a property. This deferment is not valid unless approved by the Department of Health prior to closing. This deferment must be submitted to the Department of Health with the Property Transfer Application.**
